**DIESEN SCHRITT ANSEHEN - 27:45****TIPPS AUS DER SHOW**

- If you create a puddle of water on your card, use a tissue to absorb the excess water without removing all the colour.
- Leave white spaces on the card for light and shade – do not feel you need to colour everything in completely.
- You can create different effects by varying the amount of water in your brush – more water for lighter washes, less water for darker, more concentrated colour.
