

Set Me Free Bird Shaped Card with Stencil System

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - HOBBYMAKER TV - 7 DE MAYO DE 2026

EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create a stunning shaped bird card using a six-stencil layering system with vibrant watercolour effects in pinks, purples, and golds. This project features a three-dimensional bird design with silhouetted foliage and architectural elements that can stand freely on a table or be mounted on a card base. The main techniques include layered stencilling, watercolour blending, and die-cutting to achieve a striking dimensional effect.

PASO A PASO

PASO 1 DE 8

Prepare your card stock and follow the six-stencil system numbered 1-6 on the back of the die. The system includes coordinating dies and stencils for layering floral designs.

PASO 2 DE 8

Apply stencil one to your card stock using your chosen colours, following the system guide on the back of the packaging.

PASO 3 DE 8

Work through stencils two through six in sequence, layering the colours to gradually build up the hummingbird and floral design on your card panel.

PASO 4 DE 8

Use the detailed bird die from the stencil and die set to cut out the coloured bird image. Carefully remove the die-cut bird shape from the card.

[VER ESTE PASO - 55:00](#)

PASO 5 DE 8

Use the exterior die from the Set Me Free stencil and die set to cut the outer shape of your card. This creates a shaped card that will stand upright on a table.

[VER ESTE PASO - 55:15](#)

PASO 6 DE 8

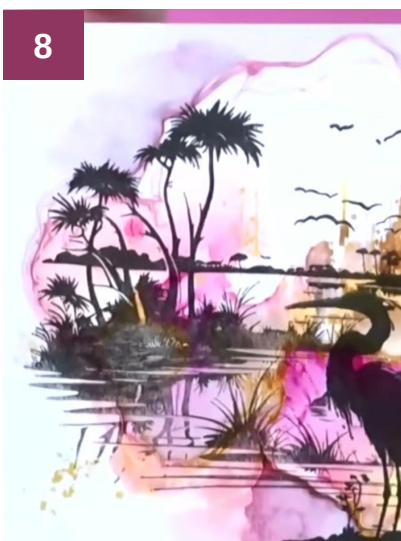

For a flat card design, use only the stencils from the Stamps By Me set without cutting. The stencils can create beautiful images on their own when used with inks or other colouring mediums.

**PASO 7 DE 8**

For extra sparkle, apply glitter paste through the final stencil layer instead of ink before cutting out the detailed bird overlay with the coordinating die.

**PASO 8 DE 8**

Use a white gel pen to add highlights to the stamped and coloured images, enhancing details on the birds, flowers and foliage to create additional dimension and bring the design to life.
