

Shaped Easel Card with Waste-Free Die Layers

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - THE THURSDAY DROP - 30 DE ABRIL DE 2026

SOBRE ESTE PROYECTO

Create an elegant landscape-oriented shaped easel card that folds flat for posting. This project uses nested waste-free dies to create layered white card stock shapes, with foam pads providing dimension and an easel mechanism that allows the decorative front panel to stand proud when opened. The clever design maximises your materials whilst creating a stunning three-dimensional effect.

[VER ESTE PASO - 45:00](#)

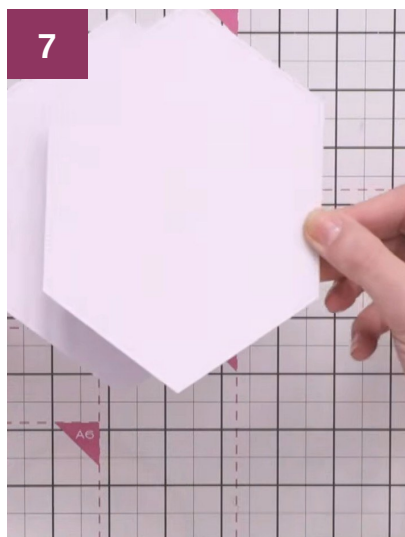

6

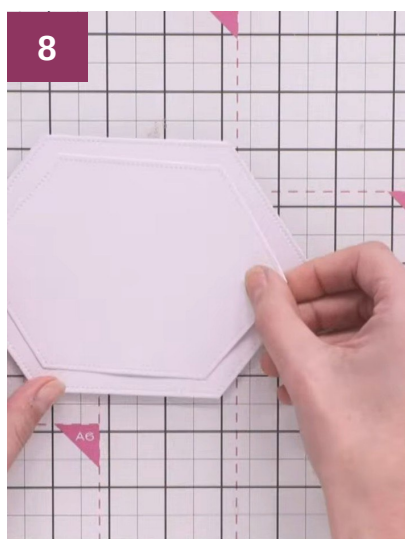

PASO 6 DE 8

Apply foam pads to the back of the smallest shaped piece. Attach it to the front of the stand-up piece to create dimension.

[VER ESTE PASO - 45:30](#)

**PASO 7 DE 8**

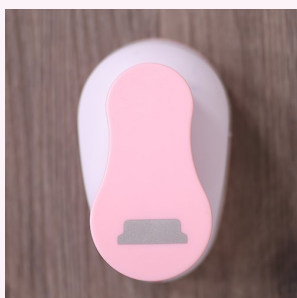

Fold the card closed to check it folds flat and will fit in an envelope.

[VER ESTE PASO - 46:45](#)**PASO 8 DE 8**

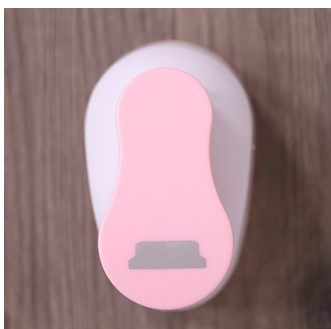

Use a tab punch to add a small decorative tab element to the card front for added interest.

[VER ESTE PASO - 47:00](#)**CONSEJOS DEL PROGRAMA**

- Do not glue the smallest piece to the back of the stand-up piece, only to the front, so the card folds flat.
- Make sure your card is straight when gluing the hinge to avoid the easel sitting at an angle.
- If the card is too tall for a standard envelope, you can trim the pieces down to fit.
