

Flat Francesca Frame Card with Stencil Layering

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT SHOW 7TH APRIL - 7 DE ABRIL DE 2023

SOBRE ESTE PROYECTO

Create a beautiful flat card featuring a vintage-style floral frame using the Francesca frame stencils. Build up delicate layers of pink flowers with brown and green foliage using a four-stencil layering system to achieve depth and dimension. This elegant design demonstrates how the frame stencils alone can create a stunning standalone card without requiring die-cuts.

PASO 2 DE 8

Apply a dusky purple or vintage colour through the flower stencil using a blending brush, creating soft floral patterns on your card base.

PASO 3 DE 8

Line up the heart registration marks on the stencil with your previous layer. Apply the second stencil layer using green ink, blending it over the floral design.

PASO 4 DE 8

Continue layering with the third stencil, adding more green or teal colour to build depth. Use the ink dauber to apply the colour through the stencil, creating additional dimension to your background.

PASO 5 DE 8

Apply the fourth stencil layer using brown ink to add the final floral details to the frame. Blend the colour evenly across the stencil openings to complete the layered design.

PASO 6 DE 8

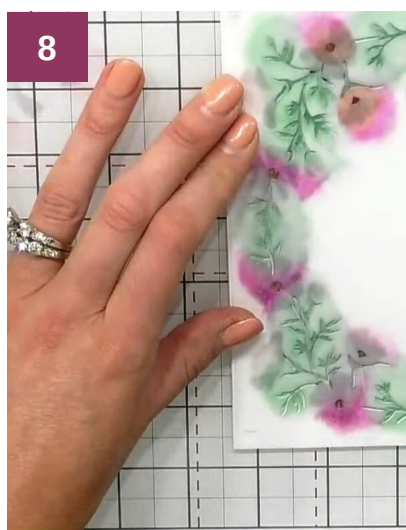

Adhere the stencilled floral frame onto a white cardstock base to create the card front.

PASO 7 DE 8

Add die-cut floral elements around the frame for additional dimension and interest. Position the flowers and foliage pieces around the outer edges of the frame, layering them to create depth.

PASO 8 DE 8

Stamp a sentiment into the centre of the frame if desired. This completes your flat Francesca frame card with stencilled floral layering.
