PASO A PASO

PASO 1 DE 7

Stamp the moon and water reflection design onto your card base using your chosen ink colour. The stamp creates a circular scene with a moon reflection and silhouette figure. Position the stamp centrally on your card front.

PASO 2 DE 7

Select your stamp design from the Time to Reflect collection. The reflection effect is already incorporated into the stamp design itself, making it simple to create the mirrored water effect without additional techniques.

PASO 3 DE 7

Using the stamp glitter moonlight pen, add foliage elements from the stamp set around your moon and water scene. Build up the trees and vegetation to create perspective and depth in your landscape.

PASO 4 DE 7

Apply chunky glitter from the included pot to the stamped tree areas using your finger or an applicator. Gently tap the glitter onto the trees to create sparkles and highlights in the scene.

PASO 5 DE 7

Use the white gel pen to add highlights to the moon, creating a crescent shape. Add small dots and sparkle effects around the moon and sky area to enhance the reflective quality of the scene.
