

Watercolour Flower Card with Lamination Stamps

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - HOBBYMAKER TV - 6 DE ABRIL DE 2026

SOBRE ESTE PROYECTO

Create a beautiful watercolour-effect floral card featuring pink and coral blooms with green foliage and a sentiment. Using a two-part lamination stamp system, you'll achieve realistic painted effects by inking the solid stamp with multiple colours, misting with water for blended watercolour tones, then adding the detail stamp overlay to complete the dimensional look.

CONSEJOS DEL PROGRAMA

- You do not need to line up the two-part stamps perfectly to get good results.
- Watercolour card with cotton content allows you to push ink around and blend it, whereas regular card stock drinks the ink too quickly.
- When watercolour artists work, they do not put line detail on everything, so it is acceptable to leave some areas without the detail stamp.
