SOBRE ESTE PROYECTO

PASO A PASO

PASO 1 DE 10

Stamp the reflection tree image onto white cardstock using light grey ink to create a subtle watermark background effect. Stamp the image several times across the cardstock to build up the background pattern.

PASO 2 DE 10

Stamp the same tree image lower on the white card using black ink. Immediately stamp the inked tree onto scrap paper to create a lighter, grey second-generation print.

PASO 3 DE 10

Stamp the lady and gentleman silhouette in the foreground using jet black ink. Position the stamp on the lower portion of your card to create a focal point. Press firmly to ensure a clear impression.

PASO 4 DE 10

Stamp a small tree image in the top right corner of the card using black ink. This adds movement and perspective to the composition. Position it to complement the main reflection scene.

[VER ESTE PASO - 21:00](#)

5

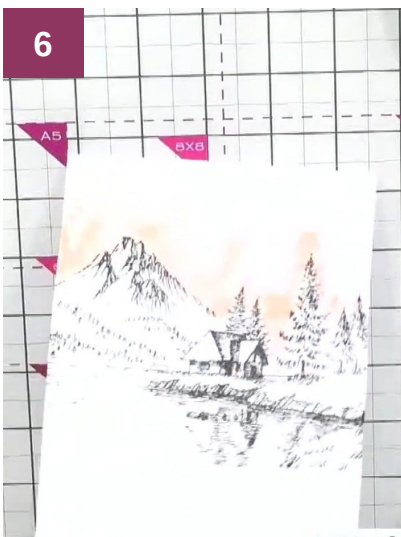

PASO 5 DE 10

Spray the top portion of the stamped card with water to activate the waterproof ink and create a watercolour effect on the mountain scene.

PASO 6 DE 10

Apply watercolour washes in blue, purple and other colours to the wet areas of the stamped image, allowing them to blend and drip naturally to create a soft, atmospheric effect.

[VER ESTE PASO - 37:00](#)

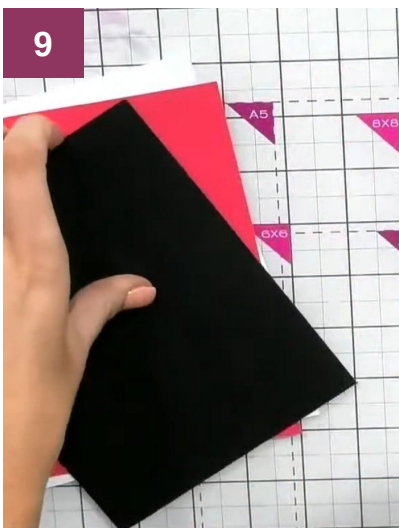

PASO 7 DE 10

Apply darker blue watercolour to the water reflection area at the base of the stamped design. Use a pen or brush to add depth to the reflection, ensuring the colour is not too dark.

[VER ESTE PASO - 39:00](#)

PASO 8 DE 10

Apply coloured sparkle pens in red, green and gold over the stamped mountain, trees and reflection elements. Tilt the card to reveal the coloured sparkle effect on the design.

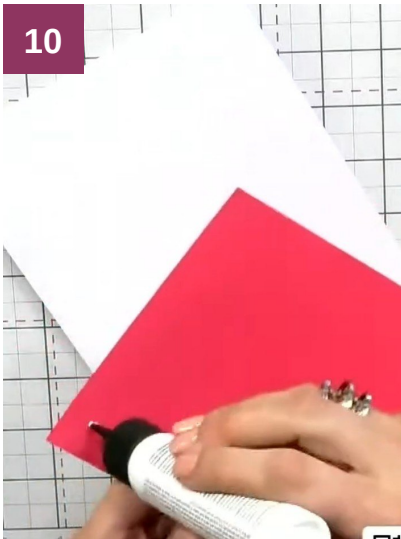

[VER ESTE PASO - 42:30](#)

PASO 9 DE 10

Mount the finished painted panel onto a red card base using glue. Position the black panel with the watercolour winter scene on top of the red card to create a layered effect.

[VER ESTE PASO - 45:30](#)

10

PASO 10 DE 10

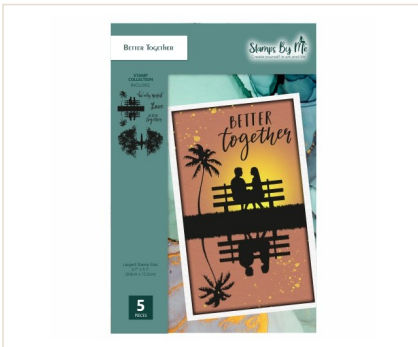

Adhere the red cardstock panel to the white card base using adhesive. Position your completed watercolour panel on top and secure in place to finish the card.

CONSEJOS DEL PROGRAMA

- You can stamp the tree upside down and still get away with it as the reflection isn't meant to be sterile.
- The hybrid ink works with watercolours and alcohol markers without needing to change your ink pad.
- Leave the water area white to create contrast and allow the reflection to show through clearly.
