

Decoupage Sunflower Card with Layered Petals

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 14 DE MARZO DE 2023

SOBRE ESTE PROYECTO

Create a stunning dimensional sunflower card featuring vibrant yellow petals, orange accents, and lush green foliage. Using the decoupage technique, you'll stamp and colour multiple layers of the sunflower design, then carefully cut and layer the petals to build up a realistic 3D effect. The finished card is framed with cheerful yellow and orange borders and includes the uplifting sentiment 'Shine Like a Sunflower'.

PASO A PASO

PASO 1 DE 10

Stamp the sunflower image three times onto white cardstock using black all-purpose ink. Ensure each stamped impression is clear and complete.

PASO 2 DE 10

Colour the first layer of the sunflower petals lightly with yellow alcohol markers. Work gently to create a soft, subtle colour on the petals.

[VER ESTE PASO - 43:15](#)

PASO 3 DE 10

Colour the second layer of petals more heavily using your chosen ink colours. Add depth and shading to create dimension and make the petals pop. Work the ink into the stamped image to build up the colour intensity.

PASO 4 DE 10

Soften the edges of the second layer using vintage ink to create a subtle fade. Apply the ink gently around the edges of the stamped floral image to add depth and dimension.

[VER ESTE PASO - 44:00](#)

5

PASO 5 DE 10

Cut out every third set of petals on the second and third layers of the sunflower image to create depth variation. This selective cutting will allow you to layer the images with dimensional spacing between the petals.

6

PASO 6 DE 10

Layer the first stamped and coloured sunflower image onto foam tape and attach it to your card base. Position it over the stamped background design to create dimension.

[VER ESTE PASO - 45:30](#)

PASO 7 DE 10

Attach the second layer of cut sunflower petals on top of the first layer using foam dots. Position the petals to create dimension and depth, ensuring they are securely adhered.

[VER ESTE PASO - 45:45](#)

PASO 8 DE 10

Attach the third, most heavily cut sunflower layer on top of the previous layers using foam pads or glue to create maximum dimension. Position it carefully to align with the layers beneath, ensuring the petals are staggered for a realistic layered effect.

[VER ESTE PASO - 46:00](#)

PASO 9 DE 10

Use a white gel pen to add highlights and texture to all visible petals on the sunflowers. Work on both the main sunflower and the smaller layered sunflower, adding fine white lines to create dimension and detail.

PASO 10 DE 10

Stamp the sentiment 'Shine like a Sunflower' onto the lower right area of the card. Layer the 3D decoupage sunflower pieces on top of the stamped image, building up the petals for dimension. Add the final layers to complete the card.

CONSEJOS DEL PROGRAMA

- Use an embossing tool or your hands to gently sculpt and curl the petals for added realism.
- Don't waste the cut-out petal pieces – use them as additional small layers for extra fullness.
- This technique is economical as it uses only cardstock and stamps you already have.
