PASO 2 DE 9

Place your white card inside the HD 3D embossing folder with the heart design. Run the folder through your die-cutting machine to create the raised embossed pattern on the card.

CONSEJOS DEL PROGRAMA

- You don't have to use the entire embossing folder design; you can emboss just part of the card by positioning it strategically.
- White-on-white embossing creates a subtle, elegant effect that shows off the texture of the folder.
- You can remake this card in different colour schemes or keep it clean and simple depending on your preference.
