PASO A PASO

PASO 1 DE 10

Position the retro dots stencil on the front of your prepared card blank. Hold it in place with your hand to prevent it from moving.

PASO 2 DE 10

Using a detail brush, pick up red ink and apply it lightly around the edges of the stencil shapes. Start with a pale application, building up the colour gradually for a soft, blended effect.

[VER ESTE PASO - 25:00](#)

PASO 3 DE 10

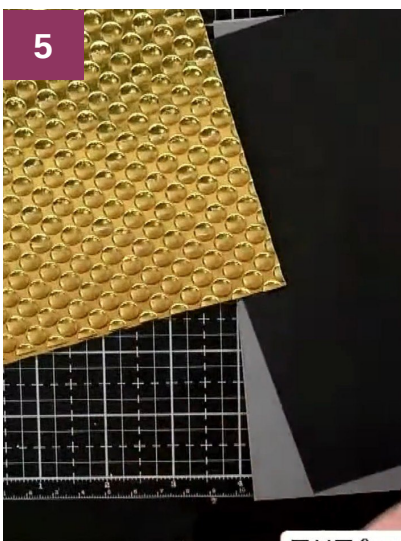

Go back over the smaller areas with darker red ink using the Retro Dots stencil. Add more detail and depth to break up the design, focusing on creating variation in the pattern.

[VER ESTE PASO - 25:15](#)

PASO 4 DE 10

Carefully lift and remove the stencil from the card to reveal the stencilled retro dots pattern in coral and pink tones.

PASO 8 DE 10

Use a sanding block on the embossed blue panel to soften the raised areas. Work gently to break up the crisp edges and create a subtle gradient effect from dark to light.

[VER ESTE PASO - 50:00](#)

9

PASO 9 DE 10

Mount the embossed panel onto the stencilled blue background card base using adhesive.

CONSEJOS DEL PROGRAMA

- Start with pale ink application and build up darker tones in smaller areas for better control.
- Emboss the card before stamping to avoid squashing the embossed pattern.
- Use sanding to create a gradient effect that helps balance the design from dark to light.
