PASO A PASO

PASO 1 DE 8

Position stencil number one along the edge of your white cardstock. Hold the stencil firmly in place with one hand to keep it from moving.

PASO 2 DE 8

Apply red ink through the first stencil layer using a sponge applicator, pressing firmly to transfer the colour onto the white card. Work the ink into all areas of the stencil design to create the base layer of the shoe image.

PASO 3 DE 8

Position stencil number two over the shoe image, using the alignment hearts as guides. Apply the red ink pad to the stencil, pressing firmly to build up depth and colour.

PASO 4 DE 8

Position stencil number three over the shoe design and apply red ink using a blending tool, pressing very firmly to ensure good coverage. If the colour is not strong enough, swap to black ink on this final layer for more impact.

CONSEJOS DEL PROGRAMA

- If you feel the first layer looks uneven, you can go back and re-ink stencil one to adjust before moving forward.
- You don't have to use all four stages; you can stop at any point for a clean, flat design.
- Swap the final layer to black ink if you want more contrast and impact on the shoe.
