PASO A PASO

PASO 1 DE 8

Position stencil number one on your white card stock. Using a sponge applicator, apply your first ink colour through the stencil to create the base of the lipstick design, building up the colour gradually.

PASO 2 DE 8

Position the second stencil over your first inked layer, aligning it carefully. Apply a second ink colour using a blending brush or sponge, pressing slightly harder to build depth and dimension.

PASO 3 DE 8

Apply the third stencil layer using a darker pink or coral shade. Press the ink firmly through the stencil to create strong shadows and definition on the handbag design.

PASO 4 DE 8

Heat set your stencilled lipstick design with a heat gun to set the inks and ensure they are fully dry before continuing.

PASO 5 DE 8

Use an anti-static bag to remove any moisture from the white card before stamping. Gently rub the bag over the entire surface of the card to ensure a crisp stamped image.

[VER ESTE PASO - 21:45](#)

PASO 6 DE 8

Using the sticky ink pad, stamp the coordinating detail stamp over the handbag image to add stitching and embellishment details to the design.

[VER ESTE PASO - 22:15](#)

PASO 7 DE 8

Apply gold embossing powder to the stamped handbag image. Tap off the excess powder. Heat set the embossing powder with a heat tool until it melts and becomes shiny.

[VER ESTE PASO - 22:45](#)

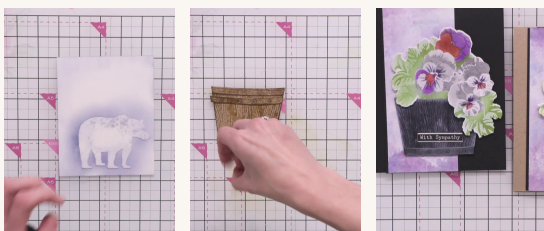

PASO 8 DE 8

Use the coordinating outline die to cut out your finished lipstick embellishment. This will give you a clean, precise edge around your stamped and embossed design.

CONSEJOS DEL PROGRAMA

- You can use just one colour on the third stencil layer if you cannot achieve a darker shade—black is always an option for extra dimension.
- Don't be precious about achieving smooth blends; the layering process naturally hides imperfections and adds texture.
- Stamping with the same ink colour as your blending intensifies the lines and creates a cohesive design.
