EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create a vibrant mojito cocktail card featuring realistic layered shading and dimensional details. Using three green ink stencils, you'll build depth in the glass, then add stamped splatter effects and die-cut the outline. Finish with a 3D embossed background for a stunning summer-themed card with professional-looking dimension.

PASO A PASO

1

PASO 1 DE 10

Position stencil number one on white cardstock, ensuring the number is visible at the edge to avoid reversing the image. The green cocktail glass stencil should be placed centrally on the white card.

PASO 2 DE 10

Apply light green ink through the first stencil using a sponge applicator, working from the corner of the white card. Start with a very light application of colour to build up the effect gradually.

PASO 3 DE 10

Remove the first stencil carefully. Position the second stencil over the same area, aligning it precisely where the first stencil was placed.

PASO 4 DE 10

Apply medium green ink through the second stencil layer to add depth to the drink in the glass. Position the stencil carefully over your previous stamping and blend the green ink through the openings.

PASO 5 DE 10

Position stencil number three over the glass image and apply a darker green or heathery shade to add depth and shading to the drink. Blend the colour carefully to create dimension.

6

PASO 6 DE 10

If the green colour is not dark enough, reposition the glass stencil and apply additional green ink to deepen the shade. Build up the colour gradually until you achieve the desired intensity.

7

PASO 7 DE 10

Stamp the Mojito glass design onto the stencilled base using black ink. Include the outline of the glass, the ice cubes, mint leaves, straw, and splatter details around the image.

8

PASO 8 DE 10

Die-cut the outline of the cocktail glass using the outline die from the Stamps By Me Quattro D 6 Piece Concept set. Position the die over your stamped and coloured image and run through your die-cutting machine.

[VER ESTE PASO - 40:00](#)

9

PASO 9 DE 10

Run the die-cut glass through the 3D embossing folder, carefully aligning it with the stamped detail to add dimension to the design.

10

PASO 10 DE 10

Apply glossy accents to the ice cubes in the glass to create a realistic liquid effect. Use the applicator tip to add the glossy medium directly onto the stamped ice cube areas.

CONSEJOS DEL PROGRAMA

- You only need one colour of green ink; simply press harder on each layer to create darker shades.
- If you are not happy with the stencil placement, you can reposition an earlier stencil and add more colour.
- You can change the Mojito element to create variations such as iced tea or other beverages.
