

Magic Wallet Gift Card with Ribbon Mechanism

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - MONDAY MADNESS - 13 DE FEBRERO DE 2023

EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create a magical gift card wallet that stands upright and opens both ways with a clever ribbon mechanism. This dual-purpose design features retro gaming motifs in pink, grey and white, with a ribbon that transfers a gift card or money from one side to the other for a delightful surprise reveal. The project uses die-cutting, layering and simple ribbon threading techniques to create this interactive card.

Del programa: Monday Madness

Mostrado: 13 de febrero de 2023

El proyecto empieza: 2:30 into the show...

En esta guía: 13 pasos, todos con foto

PASO A PASO

PASO 1 DE 13

Cut four pieces of coloured card measuring 6 by 4 inches (15 x 10 cm). Cut four pieces of white card measuring 3¾ by 5¾ inches (9.5 x 14.5 cm).

[VER ESTE PASO - 3:15](#)

PASO 2 DE 13

Stamp two inner panels using the Cookie and Crash stamps, securing them with a magnetic mat to keep them steady. Use magenta ink to create the circuit board pattern on the white card panels.

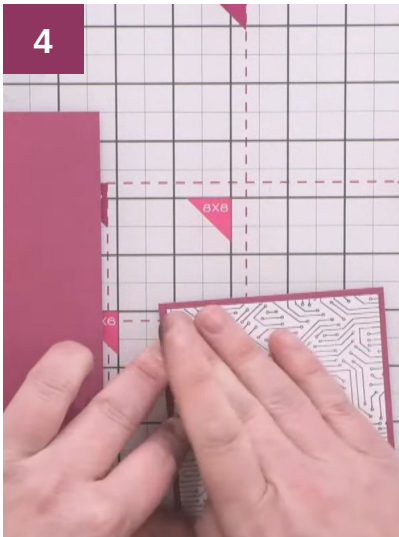

[VER ESTE PASO - 3:45](#)

PASO 3 DE 13

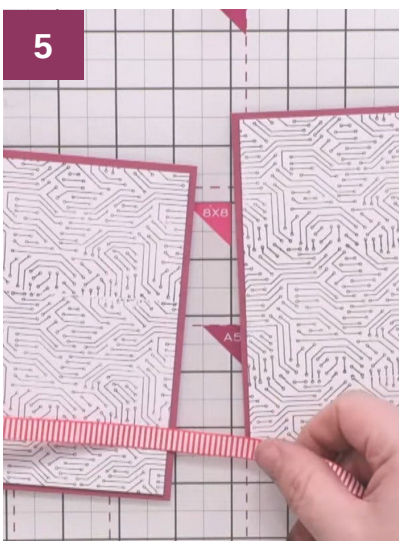

Stamp the Game Over design onto two more black card panels using the Midnight ink. Align the stamp carefully on each panel to create a continuous pattern across both pieces when placed together.

[VER ESTE PASO - 5:30](#)

PASO 4 DE 13

Glue the white patterned card panels to the pink card panels, leaving an even border all the way around each piece.

[VER ESTE PASO - 7:45](#)

PASO 5 DE 13

Cut four pieces of pink and white striped ribbon, each long enough to tuck under the edges of the card panels and extend across the width of the card.

[VER ESTE PASO - 8:45](#)

PASO 6 DE 13

On one of the card panels, arrange strips of pink and white striped ribbon in a cross pattern. Secure each ribbon piece with double-sided tape, crossing them over in the centre of the panel.

[VER ESTE PASO - 9:15](#)

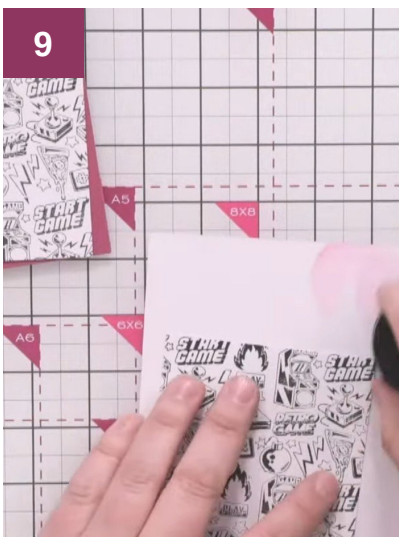

PASO 7 DE 13

On the opposite panel, attach ribbon pieces horizontally across the top and bottom, and vertically down the sides. Tuck the ribbon ends underneath the panel to secure them neatly.

[VER ESTE PASO - 10:15](#)

PASO 8 DE 13

Apply double-sided tape to the back of the two outer pink card panels. Position and adhere them over the ribbon mechanisms on both sides to conceal the ribbons and complete the wallet structure.

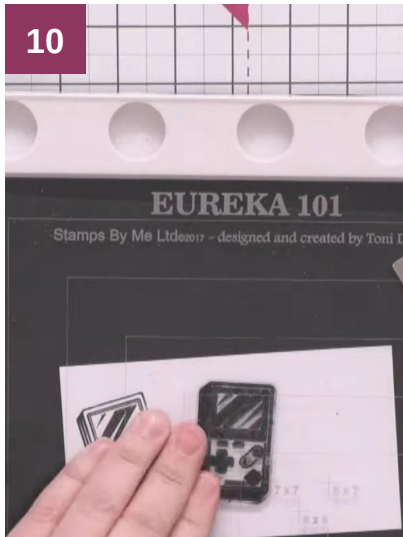

[VER ESTE PASO - 11:30](#)

PASO 9 DE 13

Distress the edges of the outer panels using Magenta ink and a piece of scrap card to soften the appearance and create a vintage look.

[VER ESTE PASO - 15:15](#)

10

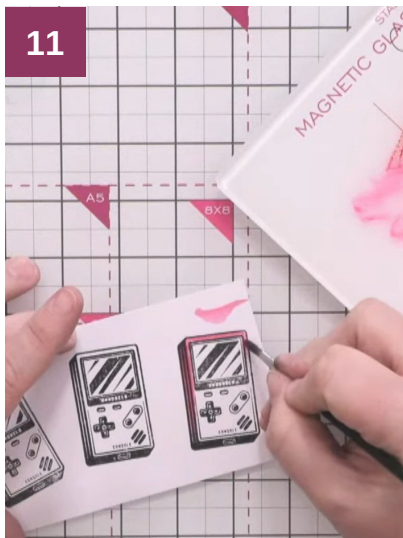

PASO 10 DE 13

Stamp three handheld game console images onto white card scraps using black ink. Use the game console stamp from the set to create the images. Position the stamps on the Eureka 101 stamping platform for precise placement.

[VER ESTE PASO - 17:45](#)

11

PASO 11 DE 13

Using a water brush or damp paintbrush, watercolour the stamped game consoles with Magenta ink. Leave some areas white for contrast and highlights.

[VER ESTE PASO - 18:45](#)

12

PASO 12 DE 13

Add silver detail to the console buttons and screens using Titanium pigment ink applied with a brush. Work carefully to highlight the small details on each game console.

[VER ESTE PASO - 20:45](#)

13

PASO 13 DE 13

Cut out the three game console images that you stamped earlier.
Apply adhesive to the back of each console and glue them flat onto the front panel of your card, arranging them as desired.

[VER ESTE PASO - 22:30](#)

CONSEJOS DEL PROGRAMA

- Watch the video back if you need to refresh yourself on the ribbon mechanism technique.
- Keep the decorative elements flat on the front panel so they don't get damaged when opening the card.
- You can put a photo or message inside the wallet section for a personal touch.
