

Embossed Leaf Die-Cut Card with Glitter Bug Powder

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - SATURDAY LIVE - 11 DE FEBRERO DE 2023

EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create a striking card featuring a die-cut leaf on gradient patterned paper, embossed with glitter bug powder to create a dimensional, sparkly effect. The leaf design is heat-embossed in rose gold tones against a beautiful purple-to-pink ombré background. This technique uses sticky ink pads and heat-setting to achieve a jewel-like, textured finish that catches the light beautifully.

Del programa: Saturday Live

Mostrado: 11 de febrero de 2023

El proyecto empieza: 4:45 into the show...

En esta guía: 8 pasos, todos con foto

PASO A PASO

PASO 1 DE 8

Die-cut your leaf shape from decorative patterned paper. Use golden metallic or mirror cardstock for the best embossed effect.

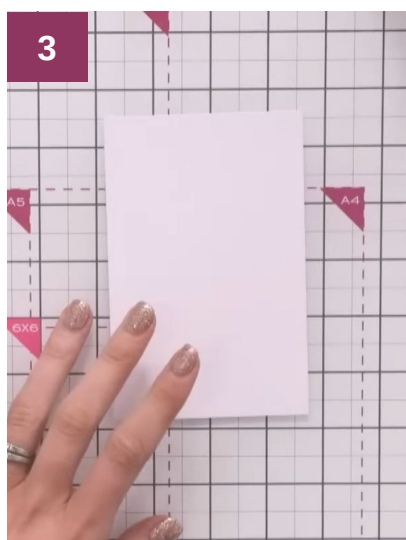

[VER ESTE PASO - 4:45](#)

PASO 2 DE 8

Apply glue to the back of the die-cut leaf using a precision glue applicator. Position the leaf centrally on your card base and press down to secure.

[VER ESTE PASO - 5:15](#)

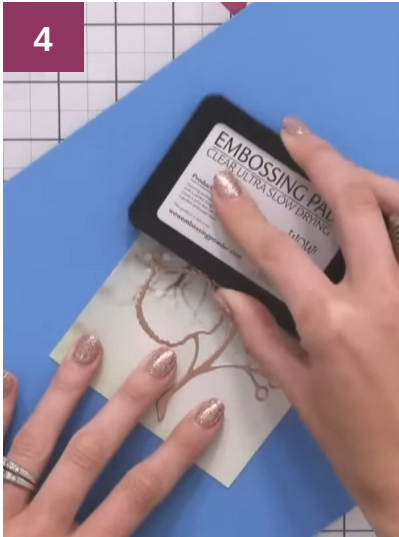

PASO 3 DE 8

Place a block or weight on top of the stamped piece to keep it flat whilst the glue dries completely.

[VER ESTE PASO - 6:30](#)

4

PASO 4 DE 8

Apply a clear embossing ink pad directly onto the die-cut leaf surface, ensuring full coverage of the design.

[VER ESTE PASO - 15:00](#)

5

PASO 5 DE 8

Sprinkle Glitter Bug embossing powder generously over the stamped design, ensuring complete coverage of all the inked areas.

[VER ESTE PASO - 15:15](#)

6

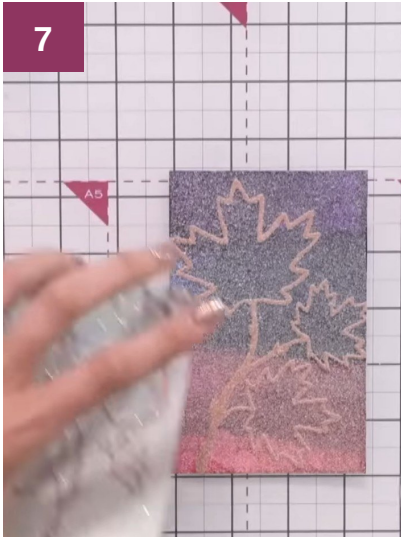

PASO 6 DE 8

Tap off the excess glitter powder back into the container to avoid waste and keep your work area tidy.

[VER ESTE PASO - 15:45](#)

7

PASO 7 DE 8

Heat-set the embossing powder using a heat gun, moving it continuously over the design to avoid overheating. Keep the heat gun moving until the powder has melted and set completely.

[VER ESTE PASO - 19:15](#)

8

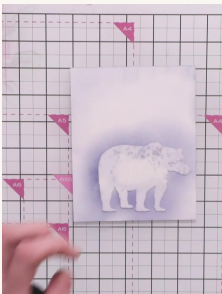

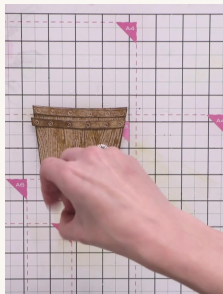

PASO 8 DE 8

Allow the embossed and glittered card to cool completely before handling. The heat-embossed design needs time to set fully.

[VER ESTE PASO - 20:00](#)

CONSEJOS DEL PROGRAMA

- Use a piece of cardstock underneath to catch any excess powder as you work.
- If your heat gun overheats, unplug it and let it cool before continuing.
- The glitter bug powder creates a chunky, dimensional effect that works well with metallic cardstock.
