PASO A PASO

1

PASO 1 DE 6

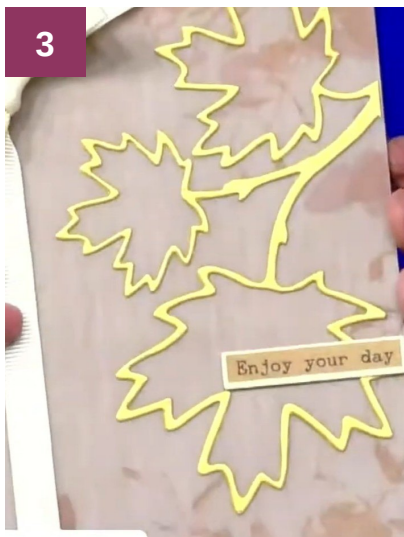

Die-cut the Maple and Lime leaves from the Secret Forest background paper several times. The leaves will be used to create the inlay design on your card.

2

PASO 2 DE 6

Inlay the die-cut leaves back into the background paper, pressing them into place to create a seamless, dimensional effect. The leaves should fit perfectly into their original positions in the design.

PASO 3 DE 6

Using a gold gel pen, carefully outline the edges of the inlaid maple and lime leaves to define and enhance the design. Work around each leaf shape, creating a bright gold border that highlights the embossed details.

PASO 5 DE 6

Add embossed or embellished elements around the leaf design if desired. Use decorative border stamps or dies to add extra dimension to your card. Position these elements to complement the main leaf focal point.

PASO 6 DE 6

Use embossing powders on inky backgrounds to create additional impact and texture on your cards. The combination of black ink with metallic embossing creates stunning dimensional effects.
