PASO A PASO

1

PASO 1 DE 7

Create an ink swipe background by dragging yellow ink across your white card stock in horizontal strokes using an ink cube. Work from one edge towards the centre to create a graduated colour effect.

2

PASO 2 DE 7

Lightly spray the inked background with water using a spray bottle. Set the piece aside to allow it to dry slightly.

3

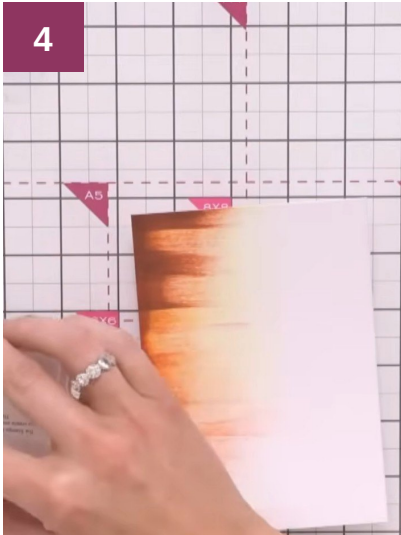

PASO 3 DE 7

Press your solid stamp into the coloured ink pad to pick up ink on its surface. Then press your detailed stamp into the same ink pad so that the raised areas pick up the colour from the inked solid stamp beneath.

4

PASO 4 DE 7

Kiss the two stamps together by pressing the detailed stamp onto the solid stamp to transfer the ink pattern. Hold them firmly together for a few seconds to ensure good ink transfer.

5

PASO 5 DE 7

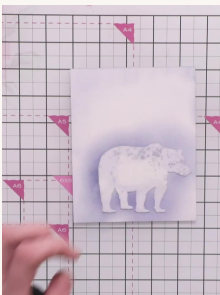

Press the stamping block with the combined kiss design onto your prepared ink-swiped background. Use a gentle rocking motion to ensure even contact across the entire stamped image.

6

PASO 6 DE 7

Position the honeycomb stencil over your card and apply yellow ink through it to connect the design elements. Use a blending tool or sponge to dab the ink through the stencil openings, creating texture between the stamped images.
