Use a white gel pen or acrylic pen to add highlights to the wheels and stopper of the roller skates.

Mount the stamped image onto white cardstock, then onto a craft card base to complete your card.

VER ESTE PASO - 46:15

CONSEJOS DEL PROGRAMA

- You don't need to block excess ink; tilting the card slightly creates natural drips that add to the artistic effect.
- Apply white highlights just around the edges of the wheels to bring light to the foreground without overdoing it.
- The ombré technique works best when you apply colour directly to the stamp before stamping, rather than trying to blend on the paper.
