

White Rose on Black Card with Colour Overlay

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - MY PODCAST - 16 DE MARZO DE 2026

SOBRE ESTE PROYECTO

Create a striking rose design on black card featuring elegant purple roses with teal-green foliage. This technique involves building up a white base layer first, then adding vibrant colour on top to achieve a bold, high-contrast image that stands out beautifully against the dark background. The finished piece showcases dimensional roses with rich purple tones and detailed leaves.

CONSEJOS DEL PROGRAMA

- The white base layer acts like white card stock, allowing coloured inks to show brightly on the black background.
- On the first coloured layer over white, tap gently rather than blending heavily to preserve the white base underneath.
- You may notice a subtle white halo around the rose petals, which creates a nice drop-shadow effect.
