EL PROYECTO TERMINADO

**SOBRE ESTE PROYECTO**

Create a sophisticated, moody card by applying white pigment ink highlights to black cardstock, then emboss with a high-definition 3D heart design. The dramatic contrast between the white ink and black background creates an atmospheric, elegant effect perfect for special occasions. This project combines simple stamping techniques with dimensional embossing for a striking contemporary finish.

## CONSEJOS DEL PROGRAMA

- You do not have to centre the embossed design; positioning it off to the side works beautifully.
- White pigment ink creates a subtle, elegant highlight that works well on dark cardstock.
- The high-definition 3D embossing folders work in all standard die-cutting machines, but adjust your plates as required for your specific machine.
