PASO 4 DE 12

Mix black oxide ink with water on your craft mat. Using a paintbrush, spot the diluted black ink onto the wet watercoloured card, allowing it to bloom and spread naturally into the damp areas.

Allow the watercolour to dry completely. Using a darker brown ink, apply colour to intensify the areas around where the butterfly will be positioned on the card.

[VER ESTE PASO - 24:30](#)

PASO 6 DE 12

Position your die-cut butterfly on the painted background. Apply watercolour washes using brown and orange inks with minimal water on your brush, using a dry brushing technique to add colour to the butterfly.

PASO 7 DE 12

Layer darker brown and black tones over the butterfly wings using a fine brush, building depth and dimension with each layer. Work the darker colours into the wing details to enhance the embossed texture.

[VER ESTE PASO - 31:00](#)

8

PASO 8 DE 12

Apply white ink across the butterfly using an ink pad held at an angle to highlight the embossed details.

[VER ESTE PASO - 35:15](#)

9

PASO 9 DE 12

Place the painted butterfly back into the embossing folder and run it through your die-cutting machine again to re-emboss and bring back the detail that may have been softened by the watercolour painting.

[VER ESTE PASO - 40:30](#)

10

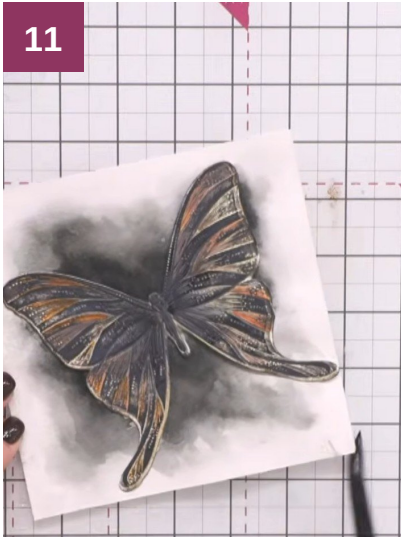

PASO 10 DE 12

Swipe a black ink pad across the butterfly at an angle to pick up all the embossed lines and add definition to the design.

[VER ESTE PASO - 42:30](#)

11

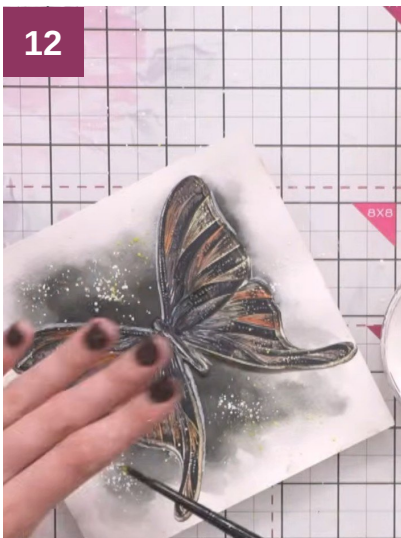

PASO 11 DE 12

Position the completed butterfly onto your card base. The butterfly features dark grey and orange watercoloured wings with a grey shadowed background on white cardstock.

PASO 12 DE 12

Using a small brush, add touches of gold or additional white highlights to the butterfly to make it stand out from the background. Focus on the wing details and edges to create dimension.

CONSEJOS DEL PROGRAMA

- If you get creasing on your card during embossing, this can be due to the card type or machine pressure; you can spray the card if needed, but prioritise getting a beautiful embossed image.
- Go light with colour and keep adding layers until you achieve the colour you want.
- You don't have to paint the butterfly; you can use gilding waxes or other creative techniques with the embossing folder.
