PASO 4 DE 8

Position stencil number three over your design and apply a darker pink shade through the stencil using a blending tool. Build up the colour to add dimension and depth to the rose petals.

5

PASO 5 DE 8

Apply the fourth stencil layer using a darker pink ink to intensify the shadowed areas of the roses. Build up the colour in the centre and inner petals to add depth and dimension to the floral design.

[VER ESTE PASO - 12:15](#)

6

PASO 6 DE 8

Use stencil number five with your darkest pink or red ink pad to add the final layer of detail to the roses. This completes the layered stencilling effect, creating depth and dimension in your floral design.

[VER ESTE PASO - 13:00](#)

7

PASO 7 DE 8

PASO 8 DE 8

Remove the die from the card to reveal the finished three-dimensional rose design with all white areas cleanly removed, showing the layered floral artwork in pink and burgundy tones.

CONSEJOS DEL PROGRAMA

- You don't have to use every layer - you can stop at three or four stencils if you prefer.
- Don't worry about getting smooth blends; sporadic colour application adds character to the petals.
- You can go back and add more colour to any layer if you feel it needs more depth.
