## CONSEJOS DEL PROGRAMA

- You do not need to prime MDF before applying glitter paste, acrylic paint, or other mediums—you can go straight onto the wood.
- When applying glitter paste freehand through a stencil, the paste itself will hold the stencil down, so you don't need to worry about it moving.
- This MDF collection accepts many different mediums including acrylic paint, gossip sparkle pens, icing sprays, and glitter paste, giving you lots of creative options.
