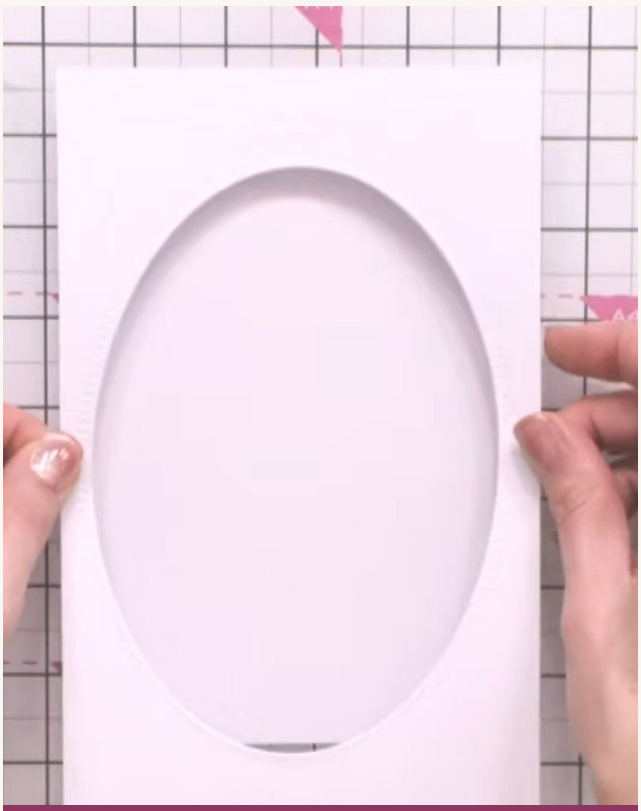
Oval Floating Window Card with Fairy Detail

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - ONE DAY SPECIAL - 3 DE OCTUBRE DE 2025



EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create an elegant oval floating window card featuring a delicate fairy detail. This layered design uses nested oval dies to create a dimensional frame effect, with the central image appearing to float on acetate or vellum. The soft pink and white colour scheme is enhanced with decorative embellishments that add depth and visual interest to this enchanting handmade card.

Del programa: One Day Special
Mostrado: 3 de octubre de 2025
El proyecto empieza: 38:30 into the show...

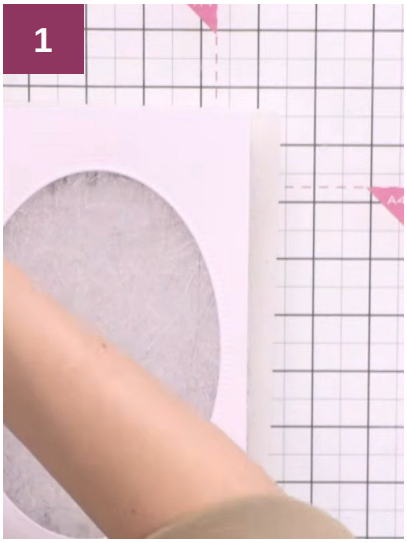
PASO A PASO



PASO 1 DE 8

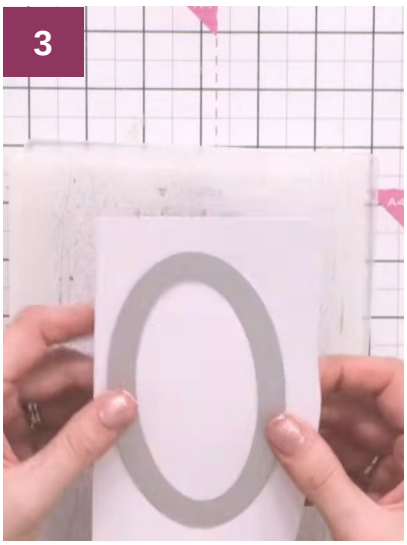
Select the largest oval die from your die set. Cut it from pink cardstock to create the outer frame for your floating window card.

VER ESTE PASO - 38:45

PASO 2 DE 8

Using the second-size oval die from the Classic Oval die set, cut an oval from white cardstock. This will be your middle layer for the floating window.

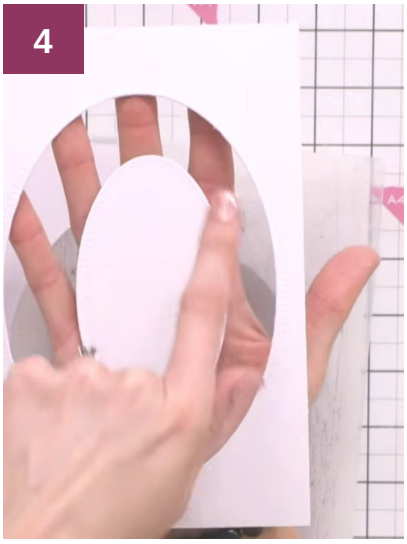
VER ESTE PASO - 39:00



PASO 3 DE 8

Cut the third-size oval from the die set using acetate or vellum to create a transparent window effect. This will form the see-through panel for your floating window card.

VER ESTE PASO - 39:15



PASO 4 DE 8

Layer the acetate or vellum between the two cardstock ovals using adhesive foam pads. Position the acetate sheet over the grey oval frame, then place the white oval piece on top to create a sandwich effect.

VER ESTE PASO - 39:30

PASO 5 DE 8

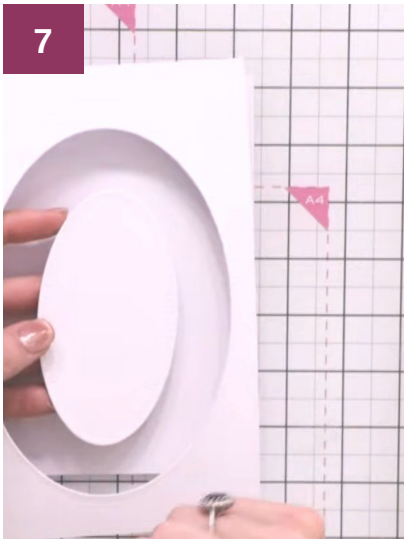
Cut a smaller oval from your patterned paper using the oval die set. This will sit in the centre of your card as a floating element.

VER ESTE PASO - 39:45

PASO 6 DE 8

Adhere the centre oval element to the acetate window using foam pads so it appears to float inside the card.

VER ESTE PASO - 40:00



PASO 7 DE 8

Add embellishments such as baubles, flowers or a banner across the centre of the oval window if desired. Position them to create visual interest within the floating window frame.

VER ESTE PASO - 40:15

PASO 8 DE 8

Position the completed oval design onto your card base and smooth it down firmly to secure it in place.

VER ESTE PASO - 40:30

CONSEJOS DEL PROGRAMA

- The detail on the oval dies is embossed on both the exterior and the interior cutout, giving you two decorated elements from one die.
- Using acetate or vellum behind the window creates the illusion that elements are floating in fresh air.
- You can decorate the floating centre element with additional details like holly, berries or small baubles.
