Red Peony Heat-Embossed Card with Bleached Effect

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CATCH UP WITH TONI FOR ANYTHING GOES WEDNESDAY IN...

SOBRE ESTE PROYECTO

Create a striking card featuring heat-embossed peonies on a distress oxide inked background. The design uses a red base with gold embossing, then selectively bleaches areas of the flowers to create a lighter, dimensional effect.

CONSEJOS DEL PROGRAMA

- Make sure the inked cardstock is absolutely dry before heat embossing to avoid moisture issues.
- The bleaching technique works better on some cardstocks than others, so results may vary.
- Oxide and dye-based inks are reactive with water, so adding colour on top may activate the colour underneath and create an unpredictable result.
