UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CATCH UP WITH TONI FOR TECHNIQUE TUESDAY IN THE...

SOBRE ESTE PROYECTO

Use a decorative wood panel die to create a dimensional card with a rise and fall effect. Layer the die-cut wood panels at alternating heights to create visual interest, then add a stamped sentiment in gold embossing. CONSEJOS DEL PROGRAMA

- When paper piecing the die-cut sections, take your time to match the design correctly; patience is key to getting the jigsaw pieces in the right order.
- The rise and fall effect is created by layering panels at alternating heights; you can enhance the embossed detail by rubbing white ink over the die-cut areas.
- Add sparkles on top of your artwork as well as around it to create additional visual interest and dimension.
