PASO 4 DE 11

Apply your first colour layer using a chiselled-edge alcohol marker. Focus on the darker areas already present in the stamped image to build up depth and dimension.

5

PASO 5 DE 11

Layer the same colour again over the darker areas of the cat to build depth and dimension. Work the marker over the previously coloured sections, focusing on shadows and deeper tones.

6

PASO 6 DE 11

Use a second brown marker to add darker tones and variation to the cat's fur. Build up the detail by adding shading to create depth in the coat, focusing on the darker areas visible in the reference image.

7

PASO 7 DE 11

Using a dark grey or black alcohol marker, carefully colour around the nose area. Work in small circular motions to build up the darker tones gradually, creating depth and definition in the facial features.

8

PASO 8 DE 11

Select a green marker for the cat's eyes to complement the backing papers. Apply the colour to the eye areas of your stamped cat image.

[VER ESTE PASO - 38:30](#)

9

PASO 9 DE 11

Use a white gel pen to add fine fur texture details over the coloured areas of the cat, creating highlights and definition in the coat.

[VER ESTE PASO - 39:30](#)

10

PASO 10 DE 11

Use a white gel pen to add whisker details to the cat portrait, as these fine details are lost during the colouring process. Go back over darker areas to ensure the white whiskers show clearly against the coloured background.

[VER ESTE PASO - 40:00](#)

11

PASO 11 DE 11

Use a white marker or gel pen to add highlights to the cat's feet and other small areas. This will add extra dimension and bring the portrait to life.
