PASO A PASO

1

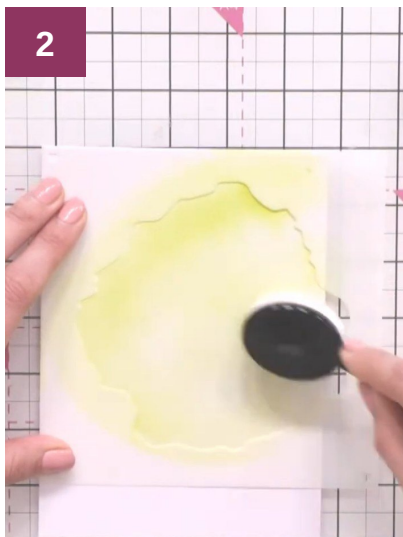

PASO 1 DE 10

Position the first layering stencil (marked as number 1) on your white card stock, aligning it carefully with the edge to ensure all subsequent stencils will line up correctly.

[VER ESTE PASO - 34:00](#)

2

PASO 2 DE 10

Apply yellow ink through the first stencil using a sponge dauber, creating a base colour wash over the white card. Work the colour gently across the stencil design to build up the watercolour effect.

[VER ESTE PASO - 35:15](#)

3

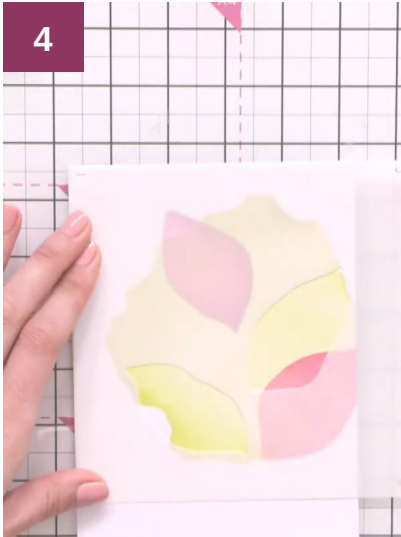

PASO 3 DE 10

Position the second numbered stencil in the same alignment over your card. Apply pink ink using a blending brush, layering it over the yellow areas to create depth and dimension.

[VER ESTE PASO - 36:15](#)

4

PASO 4 DE 10

Apply the third stencil layer using a different colour ink paste with the blending tool. Build up the transparent watercolour effect by carefully overlaying the stencil to create depth and dimension with the leaf design.

[VER ESTE PASO - 37:30](#)

5

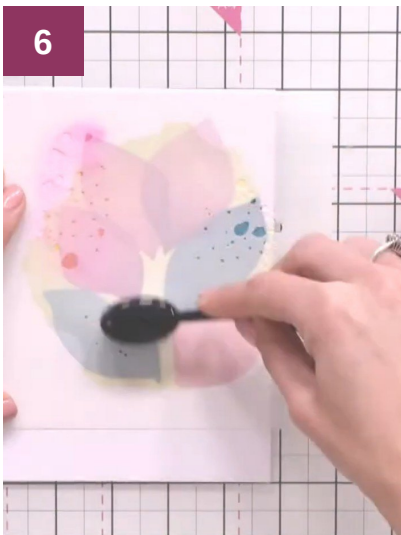

PASO 5 DE 10

Create an ombré effect by applying darker ink at one end of the leaf shape using a blending tool. Gradually blend to a lighter colour towards the top of the leaf. Experiment with your colours to achieve the desired effect.

[VER ESTE PASO - 38:45](#)

6

PASO 6 DE 10

Use the splat stencil to add artistic splatter details across the watercolour design. Position the stencil in different areas and apply ink through it to create visual interest and texture.

[VER ESTE PASO - 40:00](#)

PASO 7 DE 10

Stamp the leaf image onto the white card using black ink, positioning it centrally to complement your stencilled watercolour background.

[VER ESTE PASO - 46:00](#)

PASO 8 DE 10

Apply sticky embossing ink from your pad to the sentiment stamp and press it onto the card front. Position it carefully to align with your layered leaf design.

[VER ESTE PASO - 47:00](#)

PASO 9 DE 10

Sprinkle popping pink embossing powder over the wet embossing ink on the card. Ensure the powder covers all the inked areas evenly.

[VER ESTE PASO - 50:30](#)

10

PASO 10 DE 10

Heat set the embossing powder with a heat gun, moving it over the design until the powder becomes shiny and fully melted onto the card.

CONSEJOS DEL PROGRAMA

- Use an antistatic bag to remove moisture from your card before embossing to prevent powder from sticking to unwanted areas.
- You do not have to use the stamp element; you can create beautiful designs using just the stencils.
- Experiment with different colour combinations as you will get a different look every time you layer the stencils.
