PASO A PASO

1

PASO 1 DE 9

Check your layering stencils are numbered clearly. Ensure you can identify each stencil number before beginning to use them for the design.

2

PASO 2 DE 9

Position stencil number one on your card base. Use the heart registration marks in the corners of the stencil to align it with the edges of the card.

3

PASO 3 DE 9

Apply black ink through the stencil using an ink blending brush, tapping off excess ink before applying to the vellum. Work the ink over the flower petals and leaves to build up the design.

[VER ESTE PASO - 37:45](#)

4

PASO 4 DE 9

Carefully remove the stencil from the vellum and set it aside. Allow the ink to dry completely before proceeding to the next step.

[VER ESTE PASO - 38:00](#)

PASO 5 DE 9

Position stencil number two over your work, carefully lining up the registration marks. Apply ink through the stencil using your blending tool to add the second layer of the design.

[VER ESTE PASO - 38:15](#)

PASO 6 DE 9

Continue building up the sunflower design by layering stencils three, four and five. Apply ink in different colours - yellow for the petals, purple for shading, green for the centre, and blue for the leaves - to create depth and dimension.

[VER ESTE PASO - 39:00](#)

PASO 7 DE 9

Apply clear glue to selected areas of the leaves using a glue pen, focusing on the parts you want to add sparkle to.

CONSEJOS DEL PROGRAMA

- Always check you can see the stencil number before using it, as using it in reverse will give you a backwards image.
- The heart registration marks in the corners help you line up your stencil straight with the card edge.
- Colourless glitter (media glitter) lets the colour come through from underneath, creating a glass finish rather than a coloured sparkle.
