PASO A PASO

PASO 1 DE 7

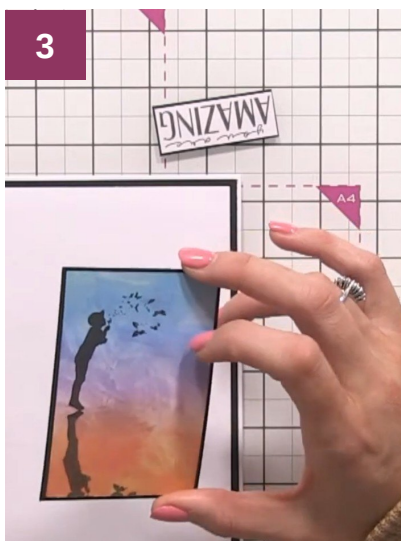

Stamp the reflection image onto the coloured gradient card using midnight ink. Position the 'You are Amazing' sentiment stamp on white card and stamp it clearly.

PASO 2 DE 7

Notice how the reflection is built into the stamp design. The silhouette figure and its reflection are part of the same stamp image, so you only need to stamp once to create the complete effect.

PASO 3 DE 7

Stamp the same image again on a separate piece of white card. This time, create a shadow effect by making the top darker with blue tones and the bottom lighter with orange tones, keeping the silhouette dark throughout.

PASO 4 DE 7

Cut out the stamped image carefully using scissors or a craft knife. Trim neatly around the edges of the printed scene to create your topper piece.

CONSEJOS DEL PROGRAMA

- The reflection is built into the stamp, so you only need to stamp once to get both the image and its reflection.
- Normal card stock drinks ink quicker than watercolour card, so you have less time to move the ink around.
- Watercolour card stock gives better results as the colour blends and bleeds together more smoothly.
