PASO 4 DE 10

Lightly spray the inked stamp with water to create a watercolour effect. Be careful not to over-spray, as too much water will cause the ink to run excessively.

CONSEJOS DEL PROGRAMA

- If you over-spray with water, don't panic—the watercolour effect is fluid and forgiving; you can always add more detail on top.
- Start with light ink application and build up the colour gradually for better control.
- You don't need to line up the stamps perfectly; slight imperfections add to the artistic, hand-painted look.
