

Embossing Folder Border Strip Card

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - ONE DAY SPECIAL - 11 DE OCTUBRE DE 2024

SOBRE ESTE PROYECTO

Create a striking sunflower-themed card featuring a clever border strip technique using an A6 embossing folder. The design showcases a kraft and black colour scheme with white embossed sunflowers layered over decorative patterned paper. This simple technique demonstrates how to run a small embossing folder in two directions to create an extended decorative border element for maximum impact.

CONSEJOS DEL PROGRAMA

- You don't need to apply ink to embossing folders with strong geometric patterns—the dimension is enough to make them interesting.
- The central gap can be any size you choose, allowing flexibility in sentiment placement.
- This technique works well for creating DL cards or longer strips by extending the embossed element.
