**PASO 8 DE 10**

Position a coordinating decorative panel on the back of the card. Use adhesive to secure it in place, ensuring it's centred and aligned properly.

[VER ESTE PASO - 28:30](#)**PASO 9 DE 10**

Trim away any excess card stock from the bottom edges of the card to neaten and align the panels.

[VER ESTE PASO - 29:00](#)**PASO 10 DE 10**

Test that the card closes properly by gently folding it shut. Check that all panels align correctly and that the card sits flat when closed before finalising any adhesive applications.

CONSEJOS DEL PROGRAMA

- You can use card blanks from your existing stash in any size as long as you have two different dimensions.
- Leave white panels down the sides to coordinate with the back of the card for a cohesive design.
- If you have off-cuts of card stock, use them to fill gaps and hide the joins on the card.
