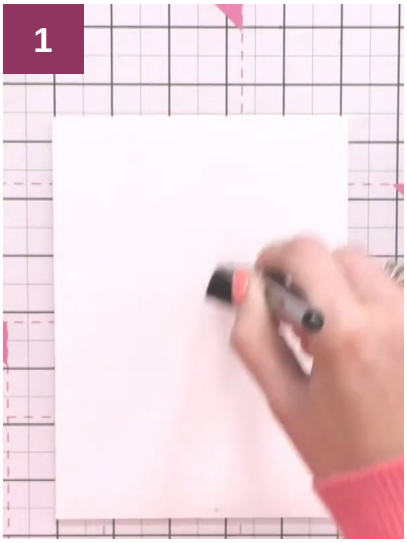
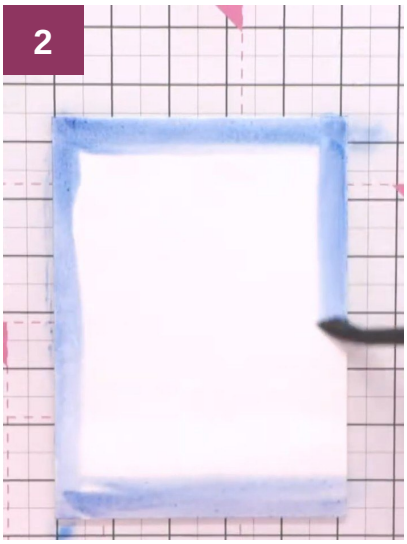
PASO A PASO



PASO 1 DE 12

Wet your watercolour card stock thoroughly with clean water using a flat or round brush, ensuring the entire surface is damp.

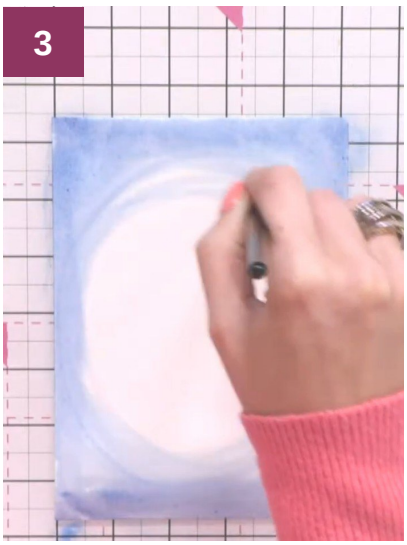
VER ESTE PASO - 3:00



PASO 2 DE 12

Apply ocean blue ink to the edges of the wet card using circular motions, working from the edges towards the centre to create depth. Continue building up the colour around all four edges of the card.

VER ESTE PASO - 4:45



PASO 3 DE 12

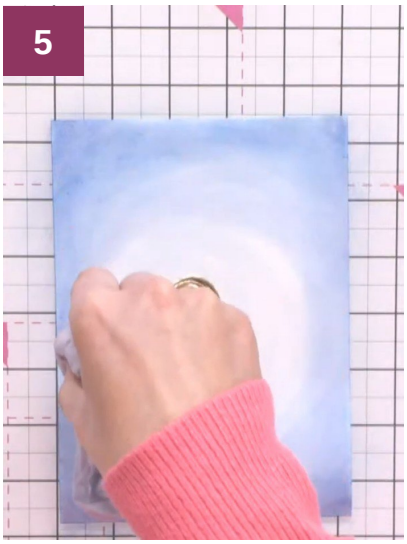
Pull the blue colour inward from all edges towards the centre using your brush, creating an oval or circular shape in the middle of the white area to suggest looking up through water.

VER ESTE PASO - 5:30

PASO 4 DE 12

Gently blot areas of the wet blue watercolour with tissue to soften harsh lines and create a soft, cloud-like atmospheric effect in the background.

VER ESTE PASO - 6:15



PASO 5 DE 12

Using a damp brush or tissue, blend darker blue colour around the edges of the card to add depth and dimension to your underwater background.

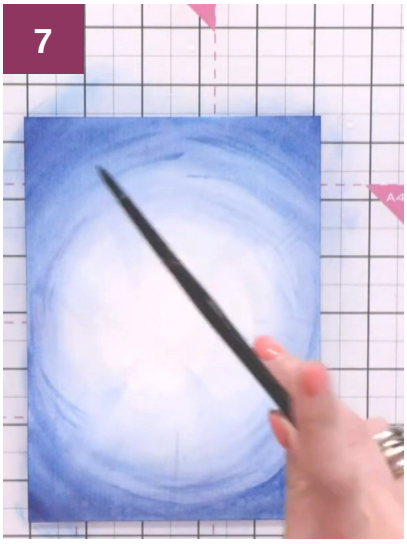
VER ESTE PASO - 8:00

PASO 6 DE 12

Allow the card to dry slightly until still damp but not soaking wet. Using a smaller brush, add fine lines with Ocean ink to suggest light rays coming through the water.

VER ESTE PASO - 12:30

7



PASO 7 DE 12

Splash clean water across the damp blue background using a loaded brush to create a speckled ripple and wave effect.

VER ESTE PASO - 19:00

8

PASO 8 DE 12

Using a smaller brush and dark blue ink, paint simple fish silhouettes in various sizes and positions throughout your underwater scene. Create different orientations and sizes to add depth and interest to the composition.

VER ESTE PASO - 25:00

PASO 9 DE 12

Using a fine brush, add white confetti splashes across the card to represent sea foam and bubbles. This will push the fish into the background and create depth in your underwater scene.

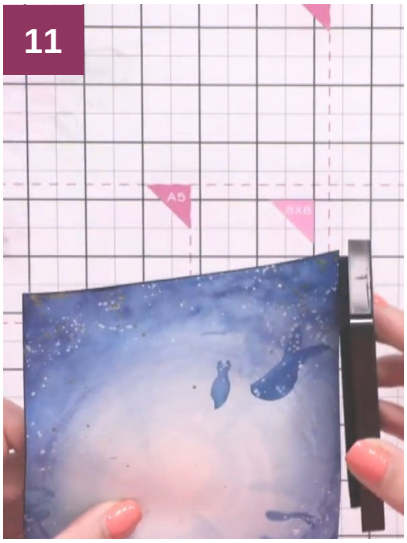
PASO 10 DE 12

Add gold confetti splashes around the edges of the card and particularly around the main fish to create shimmer and highlight. Use the gold confetti paste sparingly to add sparkle to the underwater scene.

VER ESTE PASO - 35:00



PASO 11 DE 12

Edge the entire card with black ink pad using a blending tool to frame and finish the design.

VER ESTE PASO - 37:00

PASO 12 DE 12

Use a white gel pen to add fine lines through the water areas to create movement and detail. Position washi tape sentiment strips on the card, connecting them to the fish design to complete your underwater scene.

CONSEJOS DEL PROGRAMA

- Watercolour card stock gives better results than regular card for this wet technique, though you can experiment with what you have.
- If you get harsh lines, use water and a clean brush to blend and soften them.
- Stick with the process even if it looks uncertain at first—the best results often come together at the very end.
