EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Make an elegant card using the reflection and lamination stamp duo to achieve a stunning hand-painted watercolour effect. The design features romantic silhouettes including a couple with umbrella and London cityscape, layered with soft pink and purple washes. This innovative two-part stamping system lets you add depth and movement by combining solid reflection stamps with translucent coloured lamination layers.

CONSEJOS DEL PROGRAMA

- You can use either the reflection layer or the lamination layer separately if you prefer.
- The reflection element creates a striking effect with just black ink and no additional colouring needed.
- Spraying with water before stamping the coloured layer creates a beautiful bleed and watercolour appearance.
