SOBRE ESTE PROYECTO

PASO A PASO

1

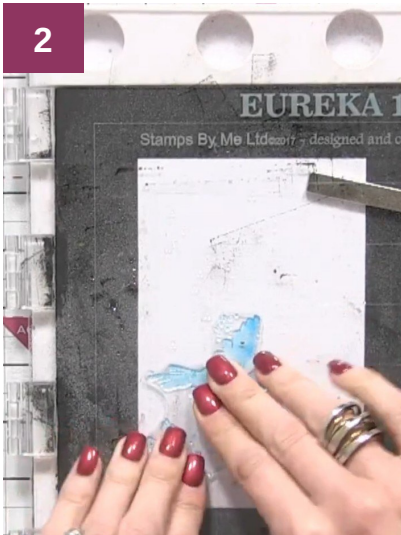

PASO 1 DE 11

Spot teal ink onto the colour stamp in random places using the corner of your ink pad. Create an abstract pattern on the stamp surface.

2

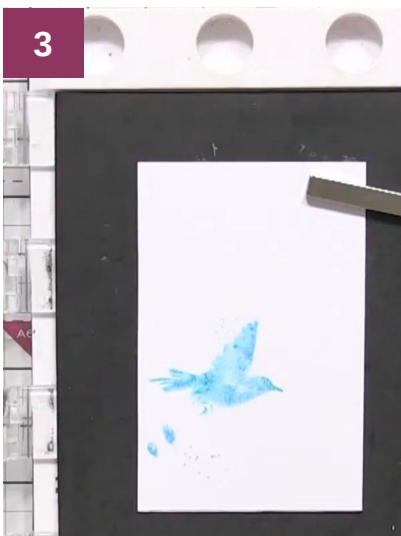

PASO 2 DE 11

Spray the inked stamp with water three times to activate and blend the colours. Use your fingers to gently spread and blend the water across the stamped image.

[VER ESTE PASO - 44:30](#)

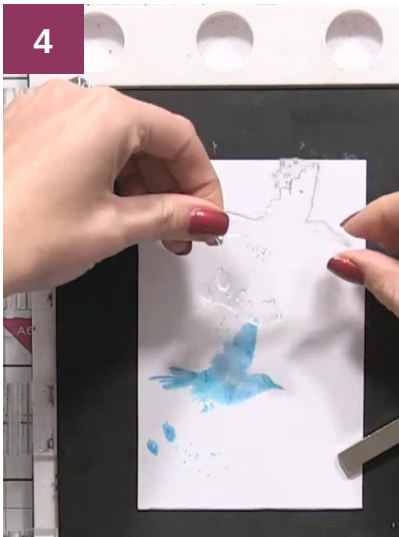

3

PASO 3 DE 11

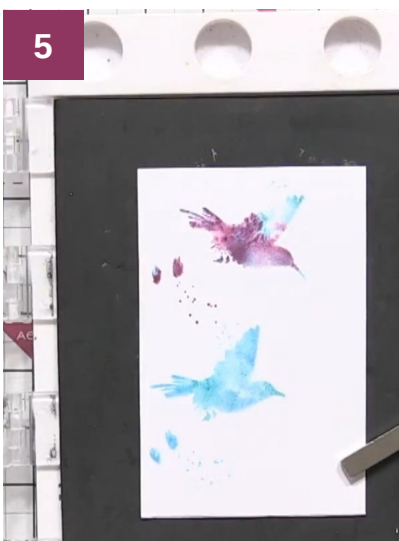

Press the wet stamp firmly onto white card stock and hold it in place to allow the blue colours to blend together, creating the hummingbird image.

[VER ESTE PASO - 44:45](#)

PASO 4 DE 11

Lift the stamp away from the card and set it aside. Allow the watercolour image to dry naturally, or use a heat gun to speed up the drying process.

[VER ESTE PASO - 45:00](#)

PASO 5 DE 11

Create a second watercolour background on another piece of white card stock using teal and purple inks. Position the colours to suggest two birds flying, with one bird in the upper area and one in the lower area.

PASO 6 DE 11

Clean the colour stamp thoroughly using a damp microfibre cloth to remove all ink residue.

[VER ESTE PASO - 47:00](#)

**PASO 7 DE 11**

Ink up the detail stamp (the hummingbird outline) with black ink, ensuring full coverage of the stamp surface.

[VER ESTE PASO - 47:15](#)

**PASO 8 DE 11**

Line up the detail stamp by matching the bird's beak and tail with the droplet details shown on the packet example. Ensure proper alignment before stamping.

[VER ESTE PASO - 47:45](#)

**PASO 9 DE 11**

Press the stamp down firmly onto the first watercolour background. Ensure even pressure across the entire stamp surface to transfer the design clearly.

[VER ESTE PASO - 48:00](#)

10

PASO 10 DE 11

Repeat the stamping process on the second watercolour background piece. Stamp the hummingbird images using the same reinker technique to create a second set of watercolour hummingbirds.

PASO 11 DE 11

Select a sentiment stamp from your collection and stamp it at the bottom of the card panel. Position the sentiment centrally to complete your card design.

CONSEJOS DEL PROGRAMA

- The lamination system includes an example on the packet showing exactly where each detail should align, so refer to this if you are unsure.
- Hybrid inks dry faster than regular ink pads, so keep the pad well-sealed and consider getting reinkers for longevity.
- You can experiment with colour inks for the detail stamp instead of black for different effects.
