PASO 7 DE 10

Select coordinating tags from the kit and position them within your floral arrangement. Tuck the tags behind flowers or use them to frame elements of your design. The tags can be stamped directly onto if desired.

PASO 8 DE 10

Build each card to your preference, using as many or as few embellishments as you like from the generous selection provided. Layer decorative elements such as the watering can with flowers, floral die-cuts, and other toppers onto your card designs. Position and adhere the embellishments to create depth and visual interest on each composition.

PASO 9 DE 10

For variation, fold a tag in half lengthways and position it on your card to create a shaped element within the design. This adds dimension and visual interest to your composition.

CONSEJOS DEL PROGRAMA

- Don't stick anything down permanently at first - place elements and move them around until you're happy with the composition, then secure.
- You can cut toppers in half and use them as layered elements or shelf-like features with dimensional pads for added depth.
- The kit contains over 156 pieces, so you don't need to be tight with embellishments - use generously to create full, beautiful designs.
