UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - ONE DAY SPECIAL - 19 DE DICIEMBRE DE 2025

SOBRE ESTE PROYECTO

Create a beautiful layered card featuring delicate hellebore flowers with curled petals set against a moody Fern and Fog patterned background. This project combines die-cut dimensional flowers in soft yellows and creams with a nature-inspired bird scene, finished with twine embellishments. The design showcases layering techniques and how to coordinate floral elements with complementary background papers for a sophisticated, vintage-style greeting card.

PASO A PASO

PASO 1 DE 12

Select a coordinating page from the Fern and Fog bumper paper pack that complements your chosen flower colour. Choose a design that will work well as a background for your hellebore card.

PASO 2 DE 12

Place the preprinted Hellebore flower paper onto the die plate, ensuring the design aligns correctly. If the alignment is not quite right, flip the paper over as it is double-sided.

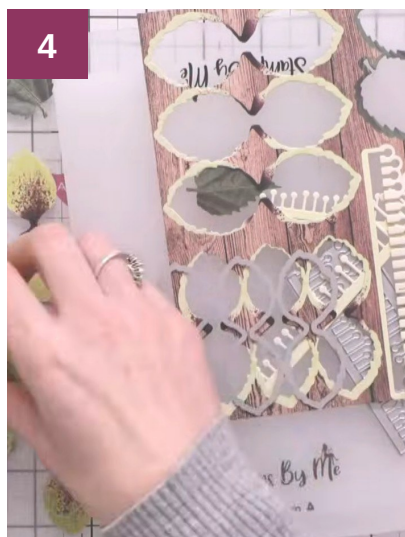

[VER ESTE PASO - 27:00](#)

PASO 3 DE 12

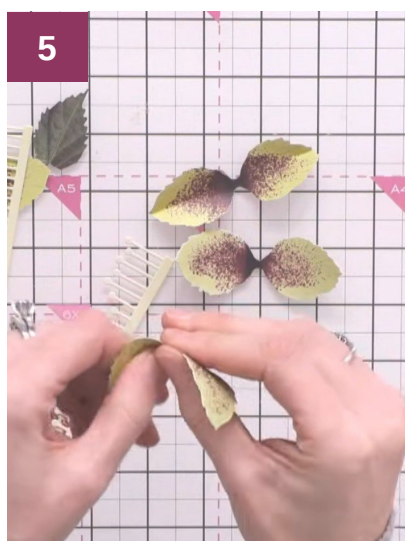

Run the paper and die through your cutting machine to cut out the flower petals and leaves. Remove the cut pieces from the backing sheet.

[VER ESTE PASO - 27:30](#)

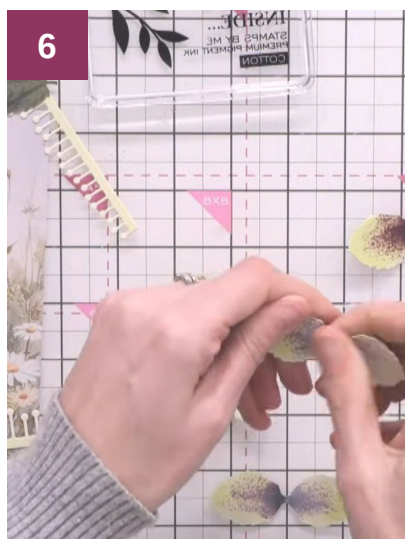

PASO 4 DE 12

Remove all the die-cut hellebore flower pieces from the cutting plate. Carefully pop out each petal and flower element from the woodgrain patterned card.

[VER ESTE PASO - 29:15](#)

PASO 5 DE 12

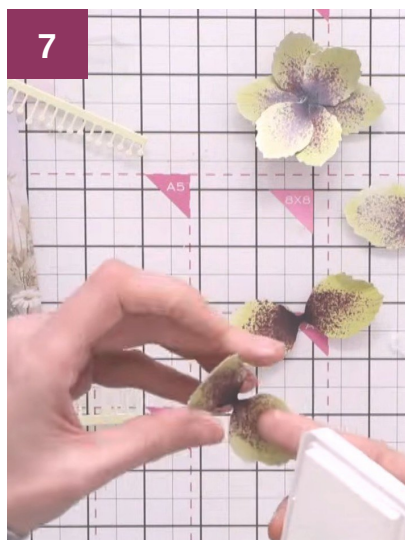

Curl the yellow and brown flower petals inward using your fingers to create dimension and shape for the hellebore blooms.

[VER ESTE PASO - 31:00](#)

PASO 6 DE 12

Use a white ink pad to soften the edges of the hellebore petals, blending away any harsh lines to create a more natural appearance.

[VER ESTE PASO - 33:15](#)

PASO 7 DE 12

Glue the petals together to form the complete flower shape.

Arrange the petals in a circular formation, overlapping them slightly to create a natural hellebore bloom.

[VER ESTE PASO - 35:00](#)

PASO 8 DE 12

Mount the Fern and Fog patterned paper onto a cream card blank using adhesive.

[VER ESTE PASO - 36:45](#)

PASO 9 DE 12

Adhere the layered hellebore flower to the centre of your card front using adhesive.

[VER ESTE PASO - 37:45](#)

10

PASO 10 DE 12

Roll additional petals around a pen or quilling tool to create extra dimension and bulk out the flower centre. Use the pink and cream petals from the floral paper to add volume.

[VER ESTE PASO - 40:15](#)

11

PASO 11 DE 12

Add complementary leaves and foliage from the die-cut floral sheet around the hellebore flower to complete the arrangement. Layer different leaf shapes and sizes to create depth and balance in your design.

[VER ESTE PASO - 42:15](#)

12

PASO 12 DE 12

For an optional glass-like finish, apply colourless glitter or sparkle media to the white circular element on your card.

CONSEJOS DEL PROGRAMA

- The preprinted papers are double-sided with colour on both sides, so flip them over if the alignment isn't quite right.
- Use white ink pad to push back bright colours and soften harsh edges for a more cohesive look.
- You can add glitter or sparkle media to enhance the finished flower without distracting from the patterned background.
