

Watercoloured Magnolia Card with Gradient Background

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 11 DE MARZO DE 2024

SOBRE ESTE PROYECTO

Create a stunning card featuring an elegant magnolia design with delicate hot-foiled gold details, beautifully painted with watercolour pen markers in soft pinks and purples. The foiling acts as a resist whilst you add a gentle gradient wash background, creating an atmospheric and professional-looking card with a sophisticated botanical theme. This project combines hot foiling, watercolouring and gradient techniques for a truly eye-catching result.

PASO A PASO

PASO 1 DE 9

Select a design from the Stamps By Me Hot Foiled Colouring Book. You can either tear out the page or leave it in the book, depending on your preference.

[VER ESTE PASO - 49:15](#)

PASO 2 DE 9

Dampen a large brush (size 14) with clean water. Paint around the entire magnolia design, leaving the flower itself dry. This creates a clean border around the image.

[VER ESTE PASO - 50:00](#)

PASO 3 DE 9

Squeeze ink from a watercolour pen marker (such as blue steel shade) onto a glass mat or palette to release the pigment for use as a background colour.

[VER ESTE PASO - 51:00](#)

4

PASO 4 DE 9

Drop the concentrated purple watercolour into the wet area around the magnolia design. Allow the colour to bloom and spread naturally on the damp paper.

[VER ESTE PASO - 51:15](#)

5

PASO 5 DE 9

Use a wet brush to drag and blend the purple colour outwards from the magnolia petals, creating a soft halo effect around the flower.

[VER ESTE PASO - 51:30](#)

6

PASO 6 DE 9

Once the background wash has dried completely, add colour to individual petals using a watercolour brush. Build up the colour gradually with light strokes to create a lovely burst of colour on selected areas.

[VER ESTE PASO - 52:00](#)

7

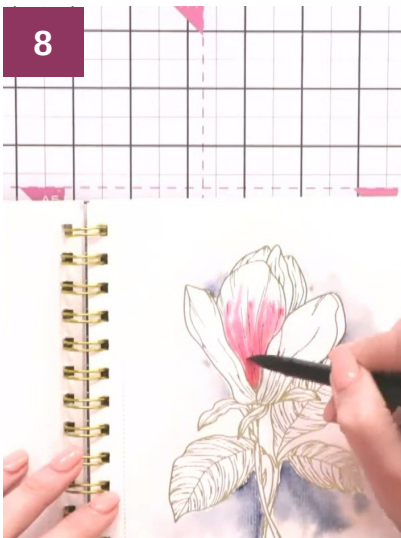

PASO 7 DE 9

Dampen a petal with clean water using a wet brush. Tap pink ink from your ink pad onto the dampened petal, then drag the colour outward with the wet brush to create a gradient effect.

[VER ESTE PASO - 53:30](#)

8

PASO 8 DE 9

Add watercolour to the magnolia petals, leaving small areas of white space within each petal to create dimension and a more realistic appearance.

[VER ESTE PASO - 54:00](#)

9

PASO 9 DE 9

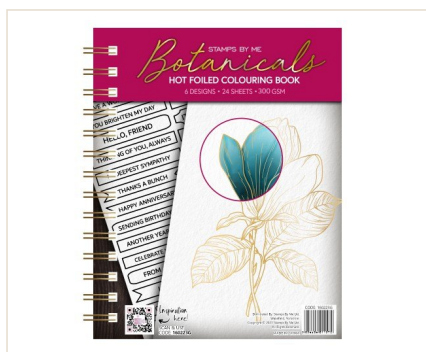

Allow the watercoloured magnolia design to dry completely. Once dry, mount the finished piece onto a card base if desired to complete your card.

[VER ESTE PASO - 54:15](#)

CONSEJOS DEL PROGRAMA

- Watercolour card stock allows you to work wet for longer, giving you more time to blend and move the colour around.
- The gold foil acts as a resist, so colour will not adhere to it, creating a natural boundary for your design.
- Leave the design to dry naturally rather than rushing; water will do its own thing, so avoid trying to control it too much.
