SOBRE ESTE PROYECTO

Create a striking romantic cityscape card featuring a silhouette of a couple with umbrella against a dreamy pink and grey urban street scene. The design uses a shortened, faded reflection effect to mimic wet pavement, giving the card an atmospheric quality. This elegant piece combines stamping techniques with careful positioning to achieve a sophisticated, romantic result perfect for anniversaries or special occasions.

PASO 5 DE 8

Position the urban street scene stamp on your black card, noting that the reflection portion of the stamp is already shortened and faded within the design. This creates a natural mirror effect for the water reflection.

CONSEJOS DEL PROGRAMA

- The reflection is already built into the stamp design, so you don't need to create it separately.
- If your ink is drying out and you get a jaded look, it actually enhances the effect.
- Keep highlights consistent—place them all on one side or top to suggest light coming from a single direction.
