

Southern Magnolia Floral Card with Die-Cut Flowers

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - MY PODCAST - 8 DE DICIEMBRE DE 2025

SOBRE ESTE PROYECTO

Create a beautiful floral card featuring pre-coloured die-cut magnolia flowers in soft pink and purple tones on a pink background with a wood-effect panel. The flowers have built-in shading for instant dimension, and you'll layer them with coordinating die-cut elements to create a stunning botanical design. This project uses simple die-cutting and layering techniques to achieve a professional finish without the need for colouring skills.

PASO A PASO

PASO 1 DE 9

Select a bright yellow coordinating paper from the Southern Magnolia pad and place it on your cutting mat.

PASO 2 DE 9

Position the die-cut flower template onto the wood-effect panel, ensuring it aligns properly over the printed flowers. Check the placement carefully before securing.

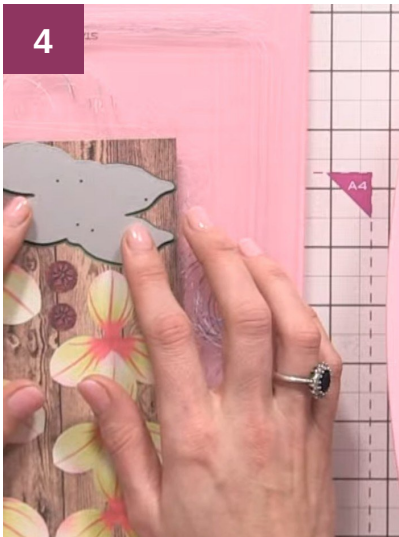

[VER ESTE PASO - 50:00](#)

PASO 3 DE 9

Position the grey foliage pieces on the wood-effect panel alongside the yellow and coral flowers. If the design doesn't line up properly on one side, flip the cardstock over to use the reverse side, as the paper is double-sided with different colours.

PASO 4 DE 9

Position the die plate on your chosen paper. Secure it in place using tape or hold it steady with your hands to prevent movement during cutting.

[VER ESTE PASO - 50:30](#)

PASO 5 DE 9

Run the paper and die plate through your die-cutting machine to cut out the magnolia flower shapes.

[VER ESTE PASO - 51:00](#)

PASO 6 DE 9

Remove the cut pieces from the paper. Observe the embossed detail in the grey leaves and the butterfly shapes created by the die cutting process.

[VER ESTE PASO - 52:00](#)

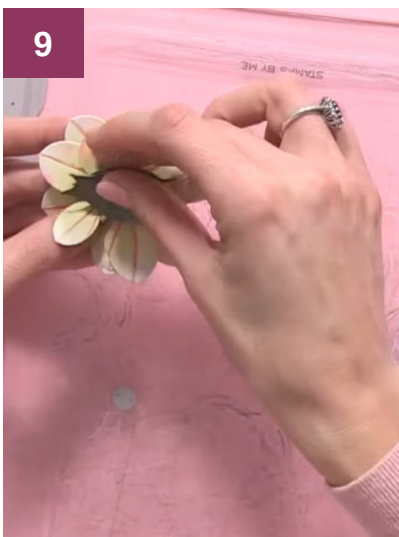

PASO 7 DE 9

Pop out the individual flower pieces and leaves from the die-cut sheet. Carefully remove each grey butterfly, pink flower petal, yellow and pink leaf piece from the backing.

[VER ESTE PASO - 52:45](#)

PASO 8 DE 9

Layer and offset the die-cut flowers on your pink card base, building your own unique bouquet arrangement. Position the yellow and pink magnolia flowers at varying angles to create depth and interest. Shape and twist the petals as desired before adhering them to the card.

[VER ESTE PASO - 53:00](#)

PASO 9 DE 9

Add the foliage elements between and around the flowers. Position the leaves to fill gaps and create a balanced, natural arrangement to complete your floral design.

CONSEJOS DEL PROGRAMA

- The bleed around the edges helps with eye appeal and compensates for slight machine movement.
- You can twist and shape the flowers into different sizes and forms for variety.
- Use the stencil background created by the die on light pink cardstock for a coordinated background before layering flowers on top.
