5

PASO 5 DE 12

Lightly spray the stamped floral images with water to create a soft watercolour effect. Alternatively, leave the stamped images dry for solid colour coverage.

Ink the flower stamps with purple ink and the leaf stamps with green ink. Stamp them onto the card in the same positions as your previous stamping to create a watercolour effect.

PASO 8 DE 12

Repeat with the third stamp, positioning it to align with the heart motif. Apply different colour combinations using your ink pads to build depth and visual interest in the floral design.

9

PASO 9 DE 12

Use the fourth detail stamp to add centres to the flowers and fine details to the leaves. Align the heart-shaped registration marks as before to ensure accurate placement.

10

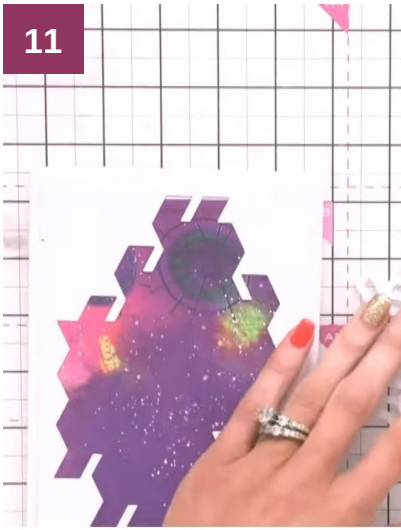

PASO 10 DE 12

Die cut all the stamped flowers using the coordinating dies from the Wow Blooms set. This will give you clean, finished floral toppers ready to add to your card.

11

PASO 11 DE 12

Arrange the die-cut floral elements on your chevron background panel, positioning them in the corner to create a layered focal point arrangement.

12

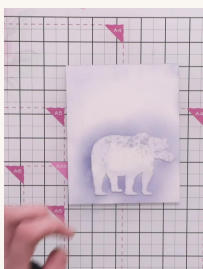

PASO 12 DE 12

Add a sentiment stamp to the bottom of the card. Use a phrase such as 'A story begins now' to complete your watercolour floral design.

CONSEJOS DEL PROGRAMA

- The heart alignment system in the centre of each stamp ensures perfect registration without needing to worry about the rest of the design.
- You can intensify colours by stamping over the same area again with more ink if the first impression is not dark enough.
- Each card will be unique because you choose your own colour combinations for each layer.
