## PASO 4 DE 9

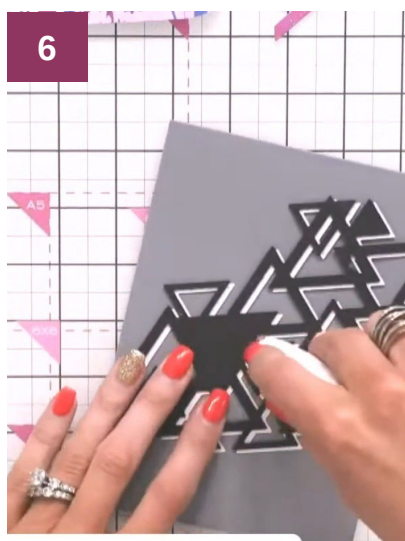

Layer the coloured triangle piece on top of the black outline version, offsetting it slightly to create a drop shadow effect. The black outline should be visible around the edges of the coloured triangles.

## PASO 5 DE 9

**Position the layered black triangle design onto the grey card blank.**  
Use adhesive tape or glue to secure it firmly in place.

## PASO 6 DE 9

Position the triangle design off to one side of the grey card base rather than centring it, creating an asymmetric layout.

## PASO 7 DE 9

Trim away any excess die-cut triangles that hang over the edge of the grey card base to make them flush with the sides.

## CONSEJOS DEL PROGRAMA

- Layering the triangles the opposite way creates a totally different look, like mountains.
- The stitch detail runs all the way through the design, adding extra visual interest.
- This design works brilliantly for gents cards due to its geometric, tire-track-like appearance.
