

Bubble and Fizz Illusion Card with Stamped Design

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - CREATE AND CRAFT TV - 29 DE DICIEMBRE DE 2023

SOBRE ESTE PROYECTO

Create a stunning optical illusion card featuring a stamped camera design framed by die-cut bubbles. Using the Bubble and Fizz die and coordinating stamps, you'll craft a card with pink borders and delicate bubble details that make the camera image appear to float within the design. This project combines die-cutting and stamping techniques to achieve an eye-catching dimensional effect.

PASO 8 DE 8

Tilt the card to the side to reveal the illusion effect where the bubbles appear to frame the camera design. The acetate layer creates a dimensional bubble effect around the stamped camera and sentiment.

CONSEJOS DEL PROGRAMA

- Colouring the stamped design before die-cutting will enhance the illusion effect.
- This technique works with any stamped image you have in your stash, not just the camera design.
- The bubbles create an instant focal point without needing additional embellishments.
