SOBRE ESTE PROYECTO

Create an elegant floral card featuring a beautifully embossed background in soft blues and pinks. Using an embossing folder inked on both sides, you'll achieve a sophisticated two-tone textured effect with both raised and debossed elements. The technique frames a delicate floral focal image, perfect for special occasions and greetings.

CONSEJOS DEL PROGRAMA

- Inking both sides of the embossing folder gives you two different finishes to choose from.
- If the two-tone effect looks too stark, you can swipe white ink over it to soften the contrast.
- Place a piece of card behind the embossing folder to prevent lines appearing on your project when running through the machine.
