PASO 3 DE 9

Run the embossing folder with your paper through your die-cutting machine to create the 3D embossed impression of the tree design.

VER ESTE PASO - 43:15

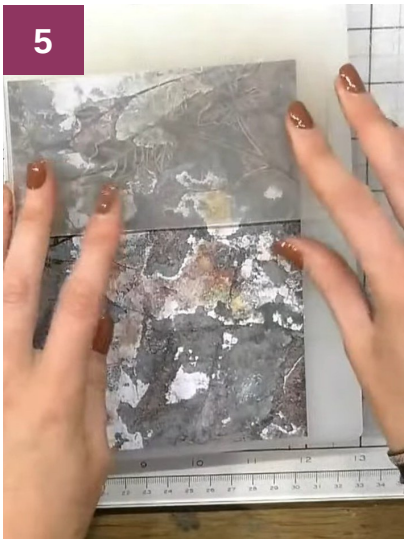
Remove the paper from the embossing folder and inspect the raised embossed detail of the tree design.

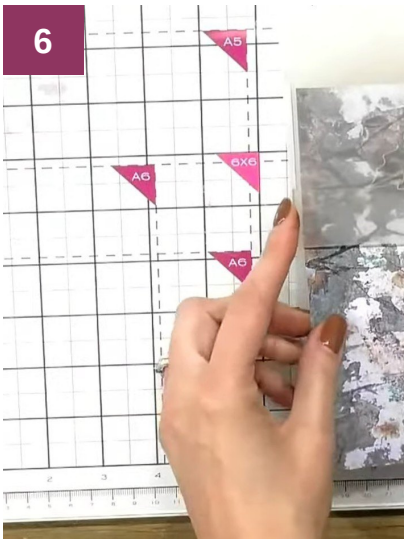
VER ESTE PASO - 43:30



PASO 5 DE 9

Tap a white ink pad directly onto the raised areas of the embossed design to highlight the texture. Focus on the raised portions to create contrast against the grey background.

VER ESTE PASO - 44:00



PASO 6 DE 9

Gently rub the white ink pad across the embossed surface to highlight the raised texture and bring out the detail of the design.

VER ESTE PASO - 44:15

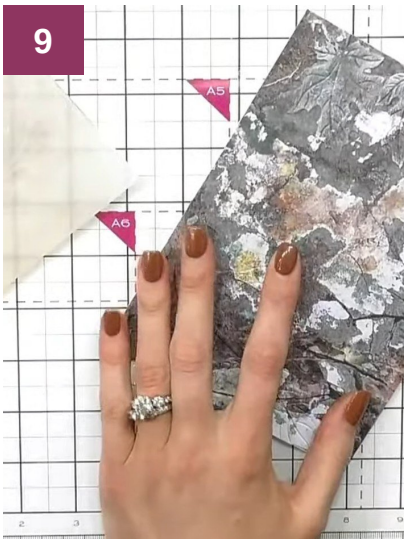
Allow the white embossing ink to dry completely before proceeding to the next step.

VER ESTE PASO - 44:45

PASO 8 DE 9

For a glossy, frosty finish, sprinkle clear embossing powder over the white ink whilst still wet. Tap off the excess powder and heat set with an embossing tool until the powder melts and becomes shiny.

VER ESTE PASO - 45:00



PASO 9 DE 9

Mount the finished embossed and highlighted panel onto a white card blank using adhesive, ensuring it is centred and secure.

VER ESTE PASO - 45:30

CONSEJOS DEL PROGRAMA

- You can change the formation of the embossing by moving the folder around on the card stock to create different placements.
- A light-coloured ink pad works best for highlighting; white is traditional but pale pink or other light colours can work too.
- The 3D embossing folders work beautifully with patterned papers you already have in your stash.
