

Layered Beer Glass Card with Quattro D

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - HOBBYMAKER TV - 13 DE JULIO DE 2026

EL PROYECTO TERMINADO

SOBRE ESTE PROYECTO

Create a sophisticated layered beer glass card using the Quattro D stencil system. This design features a realistic beer glass with golden tones and white foam, set against a decorative winter scene with pine cones and foliage. The four coordinating stencils layer together to build depth and dimension, making a professional-looking card that's surprisingly simple to achieve.

CONSEJOS DEL PROGRAMA

- Do the die cutting before embossing to avoid flattening the embossed detail.
