SOBRE ESTE PROYECTO

Create a stunning celebration card featuring a heat-embossed Eiffel Tower as the centrepiece. The iconic landmark is layered with white and gold embossing powder on purple floral patterned paper, then embellished with delicate paper-pieced flowers for an elegant, dimensional finish. This sophisticated design combines heat embossing and layered stamping techniques to create a truly special handmade card.

PASO 5 DE 12

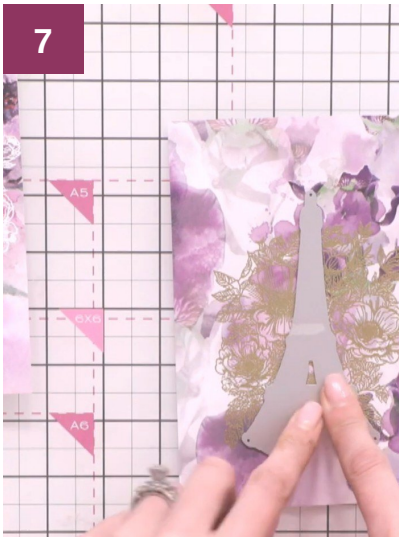

Stamp the same floral design onto a second piece of patterned paper from the Bloom & Grow pad. Heat emboss this stamped image using gold embossing powder instead of white, following the same heating process.

PASO 7 DE 12

Use the coordinating die to cut out the gold embossed Eiffel Tower, carefully aligning the die at the sphere at the top of the tower to ensure accurate positioning.
