SOBRE ESTE PROYECTO

Create a striking winter village card featuring a charming embossed scene in black ink. Using an embossing folder, you'll achieve a beautiful dimensional letterpress effect that showcases a cottage nestled amongst trees. This elegant technique works wonderfully on white card stock, creating a sophisticated monochrome design perfect for the festive season.

CONSEJOS DEL PROGRAMA

- You can use the embossing folder on both sides - if you don't like the design on one side, the other side may work better
- Try this technique on metallic card stock or card with a white core that you can sand back for different effects
- Embossing folders are inexpensive workhorses that offer multiple techniques beyond basic embossing
