

Simply Gorgeous Lady Card with Laminated Flower Details

UN PROYECTO DE NUESTRO PROGRAMA EN DIRECTO - THE BRAND NEW LAUNCH - 29 DE JUNIO DE 2026

SOBRE ESTE PROYECTO

Create an elegant card featuring a gold-embossed lady silhouette enhanced with beautiful laminated flower details. Using a two-part lamination system, layer different coloured embossing powders to achieve a stunning watercolour effect on the flower petals and facial features. The finished card combines sophisticated black and gold tones with delicate pink and green floral accents.

PASO A PASO

1

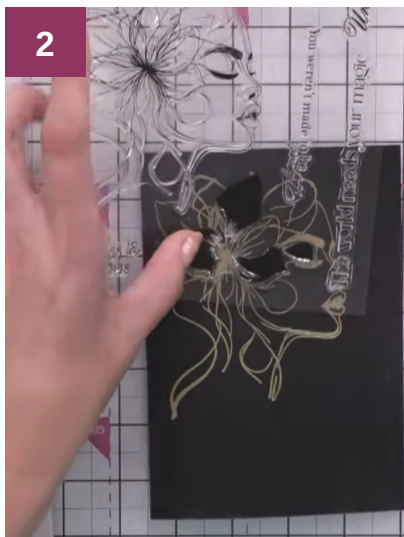

PASO 1 DE 7

Line up the first lamination stamp by matching the lips on the stamp to the lips on the embossed lady image.

2

PASO 2 DE 7

Apply sticky ink to the lamination stamp, ensuring all the detail is well covered. The stamp features a floral design that will be used to create the laminated elements.

PASO 3 DE 7

Apply the dark fuchsia embossing powder (Bibbidi Bobbidi Boo) over the gold embossed image on the black card. Ensure the powder covers all the inked areas of the floral design.

[VER ESTE PASO - 58:00](#)

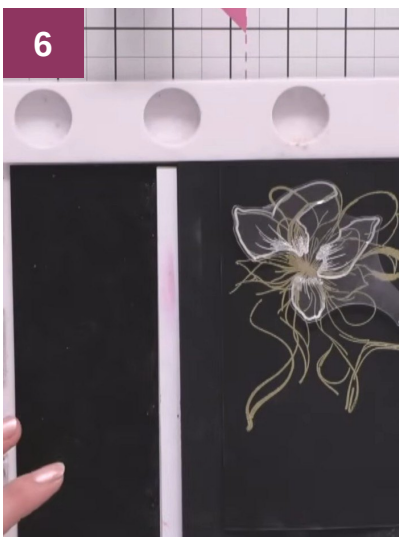

PASO 4 DE 7

Heat set the embossing powder quickly with a hot heat gun, being careful not to melt the gold embossing underneath.

PASO 5 DE 7

Re-ink the stamped image on the card with the sticky embossing pad. Apply the lighter pink embossing powder from the WOW Powder Trio over the sticky area to create the second lamination layer.

[VER ESTE PASO - 59:00](#)

PASO 6 DE 7

Heat set the lighter embossing powder using your heat tool, working quickly to preserve the gold layer beneath. Move the heat tool evenly over the powder until it melts and sets.

[VER ESTE PASO - 1:00:00](#)

PASO 7 DE 7

Once the embossing powder has cooled completely, gently brush away any remaining anti-static powder from the black card to reveal the finished white embossed flower design.

CONSEJOS DEL PROGRAMA

- Line up the lamination stamps using the lips as your guide - this ensures the flower petals align correctly.
- Work very quickly when heat setting over previously embossed layers to avoid melting the gold underneath.
- Lamination is not perfect and will have a watercolour finish, so slight overlapping of colours is part of the design.
